Dear Sir/Madam:

On February 20, 2001, Kansas City Power & Light Company ("KCPL") submitted an application ("Application") for the indirect transfer of Facility Operating License NPF-42 ("NPF-42") for the Wolf Creek Generating Station ("Wolf Creek"). In Section XIII of the Application, KCPL stated that it would provide to NRC staff for information a copy of its filings at the Missouri Public Service Commission ("MPSC") and the Kansas Corporation Commission ("KCC") for approval of the corporate restructuring of KCPL that would result, among other things, in the indirect transfer of NPF-42. Each of the MPSC and KCC filings was made on February 26, 2001. On behalf of KCPL, please find attached copies (excluding exhibits) of the MPSC and KCC filings.

In the Matter of the Application of Kansas City)	
Power & Light Company for an Order Authorizing)	Case No.
Its Plan to Reorganize Itself Into a Holding)	
Company Structure.)	

APPLICATION

COMES NOW Kansas City Power & Light Company ("KCPL") and, pursuant to Sections 393.190, 393.200, 393.210, and 393.250 RSMo 2000', and 4 CSR 240-2.060(1), (8) and (12), respectfully requests an order from the Missouri Public Service Commission ("Commission") that grants KCPL the authority to, *inter alia*, restructure and reorganize itself as more particularly described herein.

I. Summary of Restructuring Plan

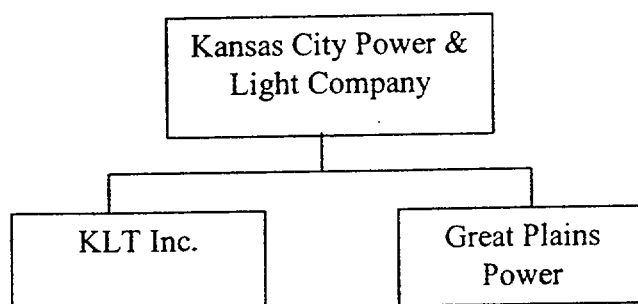

KCPL is a vertically integrated electric utility company. In accordance with Missouri law and the Public Utility Holding Company Act of 1935 (15 U.S.C. § 79 et seq.) ("PUHCA"), KCPL proposes to reorganize into a registered holding company structure. Additional regulatory approvals will be obtained from the Kansas Corporation Commission, the Federal Energy Regulatory Commission, the Nuclear Regulatory Commission and the Federal Communications Commission. A registration statement will be filed with the Securities and Exchange Commission. This reorganization will not require a vote of KCPL's shareholders. After the reorganization, a new holding company ("HoldCo") will be the sole owner of three subsidiary companies, all of which already exist – *i.e.* KCPL, KLT, Inc. ("KLT") and Great Plains Power ("GPP").² KCPL will remain

² The actual name of HoldCo has not been determined at this time. The Articles of Incorporation for HoldCo will be filed with the Missouri Secretary of State before the reorganization is completed.

a vertically integrated electric utility subject to this Commission's jurisdiction and will not transfer any of its generating assets as a part of this proposed restructuring plan. KLT will continue to invest in competitive, high growth businesses. GPP will pursue opportunities in the competitive wholesale generation market. KCPL's existing corporate structure, and the corporate structure that will exist immediately following the completion of the restructuring plan proposed herein, are illustrated below.

CURRENT CORPORATE STRUCTURE³

RESTRUCTURED COMPANY

³ The only other existing subsidiary of KCPL that is relatively significant in terms of its size is Home Services Solutions ("HSS"). It is anticipated that HSS will be sold or otherwise disposed of in the near future. None of KCPL's subsidiaries are involved in the provision of regulated utility services.

The two corporate structures illustrated above are snapshots of KCPL at the beginning and end of the proposed restructuring process. KCPL's restructuring process contains several intermediary steps. KCPL will form a wholly owned subsidiary, HoldCo. In turn, HoldCo will form a wholly owned subsidiary, NewCo. Pursuant to a merger agreement ("Merger Agreement") between KCPL, HoldCo and NewCo, KCPL then will merge with NewCo. A copy of the Merger Agreement is attached hereto as Exhibit 1. Under the terms of the Merger Agreement, the separate existence of NewCo will cease and KCPL will continue as the surviving corporation of the merger. At this point, KCPL will be a wholly owned subsidiary of HoldCo. As a part of the merger, each outstanding share of KCPL stock automatically converts into the right to receive one share of HoldCo stock. At the time of the merger, each share of KCPL's various series of preferred stock will be converted into one share of an identical series of HoldCo preferred stock. The pro forma balance sheets and income statements of KCPL before and after the proposed restructuring plan are attached hereto as Exhibit 2. Once the merger is consummated, KCPL will dividend its stock of KLT and GPP to HoldCo. At this point, HoldCo will be a publicly held corporation that owns 100% of KCPL, KLT and GPP.

KCPL anticipates that within a certain period of time following the completion of the reorganization it will form a service company ("ServCo"). ServCo will provide certain shared services to the affiliated companies. A form of the General Services Agreement that will be used for the provision of support services is attached hereto as Exhibit 3. A copy of KCPL's cost allocation manual ("CAM"), which describes the bases currently used by KCPL for allocating certain costs related to shared services, is attached hereto as Exhibit 4. The new holding company

system will continue to use service agreements, work orders and a CAM to assure that costs are properly tracked and assigned.

II. Regulation Under PUHCA

Upon completion of the reorganization, HoldCo will register with the Securities and Exchange Commission ("SEC") and become subject to additional regulation under PUHCA. A central purpose of PUHCA is "to provide a mechanism to create conditions under which effective Federal and State regulation will be possible." (See, S. 2796, 74th Cong., 1st Sess. (1935)). Accordingly, PUHCA contains a number of provisions designed to promote effective state regulation. Importantly, PUHCA does not give the SEC jurisdiction over the rates, terms and conditions of utility service. KCPL will continue to be subject to the authority of the Missouri Public Service Commission with respect to rates, terms and conditions of utility service in Missouri.

State regulation is enhanced under PUHCA by, for example, Section 6(b) which exempts issuance of certain securities, and Section 9 which exempts security and utility asset acquisitions if approved by a state commission. Likewise, the SEC may not authorize the issuance of securities or the acquisition of assets unless the applicant has complied with state law. State regulation of certain affiliate relationships is strengthened since Sections 32 and 34 of PUHCA condition the ability of an Exempt Wholesale Generator or an Exempt Telecommunications Company to enter into transactions with public utility affiliates on obtaining state commission approval. Under Section 33 of PUHCA, similar state consents are required in order to invest in foreign utilities. Consistent with the purpose of assuring that effective state regulation will continue, KCPL has agreed to a number of additional conditions set forth more fully in Section IV of this Application.

In addition to helping assure effective state regulation, PUHCA regulates other aspects of holding company operations. Section 11 limits registered holding company systems to ownership of a single integrated public utility system, which is defined as a group of related operating properties within a confined geographic region susceptible to local management. Non-utility businesses may be acquired and retained only if they are “reasonably incidental, or economically necessary or appropriate” to the operations of the integrated public-utility system.

Section 7 of PUHCA prescribes standards for the type and amount of securities for the registered holding company and subsidiaries. Registered companies and subsidiaries must obtain SEC approval before acquiring any securities, utility assets, or any other interest in any business. As noted above, an important exception to the requirement for prior SEC approval for authority to issue securities exists under Section 6 where a state commission has approved financing plans for a public utility.

The SEC and the regulatory scheme under PUHCA encourage the use of service companies, which are subject to extensive regulation. A service company is a subsidiary of a registered holding company that is formed in order to provide centralized management and administrative services to system companies. Service companies permit registered systems, including public utilities, to capture economies of scale and other efficiencies by reducing duplication of corporate support functions by each of the affiliate companies in the system. There are now approximately 30 registered holding company systems (a doubling in number since 1995) and virtually all of these systems use a service company for corporate support activities.

Service, sales and construction contracts between a system service company and associate companies in the same holding company system must be performed “economically and efficiently”

for the benefit of such associate companies generally at cost and all costs must be fairly and equitably allocated. Service companies use a work order system, make extensive use of accounting controls, and have significant reporting requirements including the obligation to file annual reports which describe affiliate transactions.

PUHCA regulates other affiliate transactions as well. A registered holding company may not borrow or receive any extensions of credit from any system public utility. In addition, there are regulations concerning the ability of system companies to make intra-system loans, pay dividends, acquire or dispose of property, or solicit proxies.

As shown in the next section, forming a holding company promises benefits. And, though KCPL believes—and the SEC itself agrees—that the many provisions of PUHCA are anachronistic and unnecessary, registration under PUHCA will result in greater, not lesser, regulation of system operations.

III. Benefits of the Restructuring

Increased competition in capital and energy markets has required traditional utilities to diversify their business operations and, in particular, to invest in businesses offering higher growth opportunities. The ability to grow earnings at a rate higher than can be expected from the traditional utility business is a key to KCPL's success, if not its survival as a stand-alone family of companies.

During the past several years, KCPL, through its subsidiary, KLT, has developed business interests in, for example, telecommunications, gas production and development, and energy services. With the recent establishment of a new subsidiary, GPP, KCPL has signaled its intention to participate in the dramatic growth of the competitive wholesale generation market. The reorganization will

facilitate the efforts of KCPL's affiliated competitive businesses to access more markets and will allow them to pursue business opportunities with greater flexibility and speed.

Sec. 393.140(12) permits electric utilities operating non-jurisdictional businesses to keep those businesses "separate and apart" from their jurisdictional utility businesses. The provisions of 4 CSR 240-20.015 and 20.017 detail the requirements the Commission has deemed necessary to ensure such separation. The proposed reorganization will further separate KCPL's retail electric customers from the Company's other business interests. In the future, those competitive businesses will be conducted in subsidiaries of HoldCo – not in subsidiaries of KCPL. Depending upon the nature of the transaction, and considering the commitments made in the next section of this Application, any significant business dealings between KCPL and its affiliated companies will be subject to review and documentation, and to the approval and/or ratemaking authority of this Commission, the SEC and/or the Federal Energy Regulatory Commission ("FERC"). In addition, KCPL's GSA and CAM, Exhibits 3 and 4, contain accounting procedures that ensure a proper allocation of costs between KCPL and its affiliates.

To reiterate, this reorganization will not, however, involve the transfer of any assets, including generating assets, from KCPL to affiliates. KCPL will remain a vertically integrated electric utility. This Commission will continue to have the statutory authority to ensure that KCPL's retail electric customers receive electric service that is safe, reliable and reasonably priced.

IV. State Jurisdictional Issues

In Re Western Resources, Inc./Kansas City Power & Light Company, Case No. EM-97-515, and *Re Union Electric Company/Central Illinois Public Service Company*, Case No. EM-96-149, this Commission approved settlement agreements designed to ensure the protection of customers of

Missouri utilities that may have become subsidiaries of a Registered Holding Company. KCPL hereby agrees to those same conditions as set forth below. KCPL further commits that it and its affiliates will continue to comply with the provisions of 4 CSR 240-2.015 and 2.017 after the reorganization is completed.

a. Access to Books, Records and Personnel

KCPL agrees to make available to the Commission Staff, and Public Counsel, at reasonable times and places, all books, records, employees and officers of KCPL and any affiliate of KCPL as provided under applicable law and Commission rules; provided that KCPL and any affiliate or subsidiary of HoldCo shall have the right to object to such production of records or personnel on any basis under applicable law and Commission rules, excluding any objection that such records and personnel of affiliates or subsidiaries are not subject to the Commission's jurisdiction and statutory authority, including objections based on the operation of PUHCA.

b. Contracts Required to be Filed with the SEC

All contracts, agreements or arrangements of any kind, including any amendments thereto, between KCPL and any affiliate, associate, holding, mutual service, or subsidiary company within the same holding company system, as these terms are defined in 15 U.S.C. § 79b, as subsequently amended, that are required to be filed with and/or approved by the SEC pursuant to PUHCA, as subsequently amended, shall be conditioned upon the following without modification or alteration: Neither KCPL nor any of its affiliates, will seek to overturn, reverse, set aside, change or enjoin, whether through appeal or the initiation or maintenance of any action in any forum, a decision or order of the Commission which pertains to recovery, disallowance, deferral or ratemaking treatment of any expense, charge, cost or allocation incurred or accrued by KCPL in, or as a result of, a

contract, agreement, arrangement, or transaction with any affiliate, associate, holding, mutual service or subsidiary company on the basis that such expense, charge, cost or allocation has itself been filed with or approved by the SEC or was incurred pursuant to a contract, arrangement, agreement or allocation method that was filed with or approved by the SEC.

c. Electric Contracts Required to be Filed with FERC

All wholesale electric energy or transmission service contracts, tariffs, agreements or arrangements of any kind, including any amendments thereto, between KCPL and any HoldCo subsidiary or affiliate, that are required to be filed with and/or approved by the FERC, pursuant to the Federal Power Act, as subsequently amended, shall be conditioned upon the following without modification or alteration: Neither KCPL nor any of its affiliates will seek to overturn, reverse, set aside, change or enjoin, whether through appeal or the initiation or maintenance of any action in any forum, a decision or order of the Commission which pertains to recovery, disallowance, deferral or ratemaking treatment of any expense, charge, cost or allocation incurred or accrued by KCPL in, or as a result of, a wholesale electric energy or transmission service contract, agreement, arrangement or transaction on the basis that such expense, charge, cost or allocation has itself been filed with or approved by FERC, or was incurred pursuant to a contract, arrangement, agreement or allocation method that was filed with or approved by FERC.

d. No Pre-Approval of Affiliated Transactions

KCPL agrees to provide the Commission and Public Counsel with copies of all documents that must be filed with the SEC or FERC relating to affiliate transactions. KCPL and HoldCo further agree that the Commission may make its determination regarding the ratemaking treatment to be accorded these transactions in a subsequent ratemaking proceeding.

**e. Contingent Jurisdictional Stipulation Regarding
Affiliate Contracts Required to be Filed With FERC**

KCPL agrees that in the exclusive event that any court with jurisdiction over KCPL, HoldCo or any of their affiliates or subsidiaries issues an opinion or order that invalidates a decision or order of the Commission pertaining to recovery, disallowance, deferral or ratemaking treatment of any expense, charge, cost or allocation incurred or accrued by KCPL on the basis that such expense, charge, cost or allocation has itself been filed with or approved by FERC, then the Contingent Jurisdictional Stipulation, attached hereto as Exhibit 5, shall apply to FERC filings according to its terms, at the option of the Commission.

**f. Contingent Jurisdictional Stipulation Regarding
Affiliate Contracts Required to be Filed with SEC**

KCPL agrees that in the exclusive event that any court with jurisdiction over KCPL, HoldCo or any of their affiliates or subsidiaries issues an opinion or order that invalidates a decision or order of the Commission pertaining to recovery, disallowance, deferral or ratemaking treatment of any expense, charge, cost or allocation incurred or accrued by KCPL on the basis that such expense, charge, cost or allocation has itself been filed with or approved by SEC, then the Contingent Jurisdictional Stipulation, attached hereto as Exhibit 5, shall apply to SEC filings according to its terms, at the option of the Commission.

V. Request for Authorization

In support of this Application, KCPL states the following:

1. KCPL is a Missouri corporation in good standing in all respects, with its principal office and place of business located at 1201 Walnut, Kansas City, Missouri 64106. KCPL is engaged in the generation, transmission, distribution, and sale of electric energy and power in those

areas in Missouri certificated to it by the Commission, including the City of Kansas City, Missouri, as well as areas of eastern Kansas. KCPL is an "electrical corporation" and "public utility" as those terms are defined in Section 386.020 (15) and (42), and, as such, is subject to the jurisdiction of the Commission as provided by law. KCPL provides electric service to approximately 230,000 residential customers and approximately 30,100 commercial and industrial customers in Missouri. KCPL's Certificate of Good Standing is attached hereto as Exhibit 6.

3. A copy of the Merger Agreement, in substantially final form, between KCPL, HoldCo and NewCo is attached hereto as Exhibit 1. In accordance with the Merger Agreement, KCPL and NewCo will merge. NewCo will cease to exist, while KCPL will continue as the surviving corporation. After the merger, KCPL will continue to be a regulated "electrical corporation" and "public utility" as defined by Missouri law, and will continue to provide electric service in KCPL's current service area under tariffs.

4. GPP is not an "electrical corporation" as that term is defined in Section 386.020(15), RSMo 2000, inasmuch as it will sell electric power exclusively at wholesale, and thus, will not be engaged in the sale of electric power at retail to the general public. See, e.g., State ex rel. Danciger v. Public Serv. Comm'n, 205 S.W. 36 (Mo. 1918). Subject to approval by the FERC, GPP will, in the future, sell wholesale power at market-based rates.

5. As described above, the proposed transactions are not detrimental to the public interest and will in fact benefit consumers and the public interest. The proposed transaction will strengthen the financial and operational separation between KCPL's retail electric business and the competitive business activities of KCPL's affiliated companies.

6. The proposed merger will not have any impact on KCPL's Missouri jurisdictional operations.

7. A certified copy of the resolutions of the Board of Directors of KCPL authorizing the Company to proceed with implementation of the restructuring is attached hereto as Exhibit 7 and incorporated herein by reference.

8. Pro forma balance sheets and income statements for KCPL with adjustments showing the effects of the proposed restructuring and capitalization are attached hereto as Exhibit 2.

9. The requirements of 4 CSR 240-2.060(4) do not apply to the proposed transaction. KCPL already possesses a certificate of convenience and necessity. The proposed restructuring plan will not alter KCPL's current service area or affect rights and obligations under its certificate of convenience and necessity.

10. The requirements of 4 CSR 240-2.060(15) do not apply to the proposed transaction. As demonstrated in the Merger Agreement, KCPL will continue as the surviving corporation, while NewCo will cease to exist. The restructuring plan does not result in a "change of electrical suppliers."

11. The proposed restructuring does not involve the transfer of any of KCPL-owned assets. Accordingly, there will be no impact on the tax revenues of any political subdivision where KCPL's structures, facilities or equipment are located.

12. KCPL has no pending action or final unsatisfied judgments or decisions against it from any state or federal agency or court which involve customer service or rates which has occurred within three (3) years of the date of the Application, except as identified on Exhibit 8, attached hereto and incorporated herein.

13. No annual report or assessment fees are overdue.

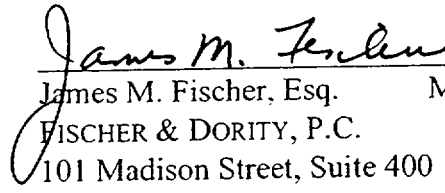

14. The Commission has explicit statutory authority to grant KCPL's requests pursuant to the above-cited statutes.

WHEREFORE, Kansas City Power & Light Company respectfully requests the Commission to issue its Order:

1. Granting KCPL the authority to restructure and reorganize itself as discussed herein.

2. Granting KCPL the authority to merge with NewCo with KCPL being the surviving corporation.
3. Granting HoldCo the authority to own more than ten percent (10%) of the common stock of KCPL.
4. Granting all other approvals necessary to implement the restructuring plan described herein, including authority of KCPL to issue the stock dividends to HoldCo as described herein.
5. Granting such other relief as may be deemed necessary and appropriate to accomplish the purposes of the Application and to consummate the restructuring transaction, as described herein.

 - 3.1.1 If the Commission Staff clears the contract for filing, or does not object to it, and no objections from affected parties are submitted to KCPL (with a copy to the Commission Staff) during the Review Period for such contract, KCPL may file such contract with the SEC and the Commission. The contract will become effective upon the receipt of all necessary regulatory authorizations and will continue in effect until it is terminated pursuant to its terms or is amended or superseded, subject to the receipt of all necessary regulatory authorizations.
 - 3.1.2 If, during the expiration of the Review Period for such contract, the Commission Staff recommends that the Commission reject, disapprove or establish a proceeding to review such contract, or if an objection(s) is submitted to KCPL (with a copy to the Commission Staff) by an affected party (or parties), KCPL may file the contract with the Commission, but shall not file the contract with the SEC until at least thirty (30) days after the date that it is filed with the Commission; provided, that both such filings shall disclose the Commission Staff's recommendation or the objection(s) regarding the contract; provided, further, that if the Commission, within twenty (20) days after the contract is filed, institutes a proceeding to review such contract, KCPL shall not file the contract with the SEC unless and until KCPL receives a Commission Order which resolves issues raised with regard to the contract and which does not reject or disapprove the contract. 4.2.3 If such contract has been accepted or approved by the FERC and one or more of the other contracting parties are Utility Affiliates subject to another state utility regulatory commission's jurisdiction, KCPL will make a good faith effort to terminate, amend or modify such contract in a manner which remedies the Commission's adverse findings with respect to such contract. KCPL will request to meet with representatives from the affected state commissions and make a good faith attempt to resolve any differences in their respective interests regarding the subject contract. If agreement can be reached to terminate, amend, or modify the contract in a manner satisfactory to the contracting parties and the representatives of each state commission, KCPL shall file such amended contract with the Commission and the FERC under the procedure set forth in this Section 4. **BEFORE THE STATE CORPORATION COMMISSION
OF THE STATE OF KANSAS**

In the Matter of the Application of Kansas City)
Power & Light Company for an Order Authorizing) Docket No. _____
Its Plan to Reorganize Itself Into a Holding)
Company Structure.)

APPLICATION

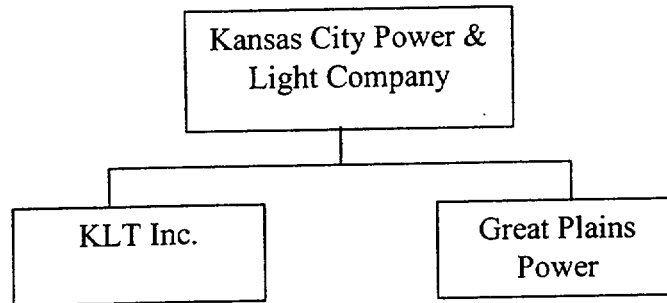

COMES NOW Kansas City Power & Light Company ("KCPL"), by and through its attorneys, and, pursuant to K.S.A 66-101, 66-136, 66-1401, and K.A.R. 82-1-214, respectfully requests an order from the Kansas Corporation Commission ("Commission") that grants KCPL the authority to, *inter alia*, restructure and reorganize itself as more particularly described herein.

I. Summary of Restructuring Plan

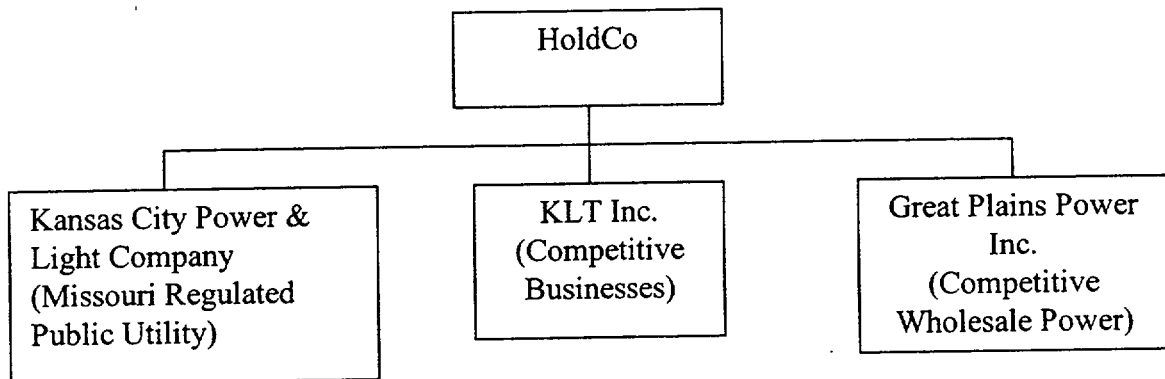

KCPL is a vertically integrated electric utility company. In accordance with Kansas law, and the Public Utility Holding Company Act of 1935 (15 U.S.C. § 79 et seq.) ("PUHCA"), KCPL proposes to reorganize into a registered holding company structure. Additional regulatory approvals will be obtained from the Missouri Public Service Commission, the Federal Energy Regulatory Commission, the Nuclear Regulatory Commission and the Federal Communications Commission. A registration statement will be filed with the Securities and Exchange Commission. This reorganization will not require a vote of KCPL's shareholders. After the reorganization, a new holding company ("HoldCo") will be the sole owner of three subsidiary companies, all of which already exist - i.e. KCPL, KLT, Inc. ("KLT") and Great Plains Power

("GPP").¹ KCPL will remain a vertically integrated electric utility subject to this Commission's jurisdiction and will not transfer any of its generating assets as a part of this proposed restructuring plan. KLT will continue to invest in competitive, high growth businesses. GPP will pursue opportunities in the competitive wholesale generation market. KCPL's existing corporate structure, and the corporate structure that will exist immediately following the completion of the restructuring plan proposed herein are illustrated below.

CURRENT CORPORATE STRUCTURE²

RESTRUCTURED COMPANY

¹ The actual name of HoldCo has not been determined at this time. The Articles of Incorporation for HoldCo will be filed with the Missouri Secretary of State before the reorganization is completed.

² The only other existing subsidiary of KCPL that is relatively significant in terms of its size is Home Services Solutions ("HSS"). It is anticipated that HSS will be sold or otherwise disposed of in the near future. None of KCPL's subsidiaries are involved in the provision of regulated utility services.

The two corporate structures illustrated above are snapshots of KCPL at the beginning and end of the proposed restructuring process. KCPL's restructuring process contains several intermediary steps. KCPL will form a wholly owned subsidiary, HoldCo. In turn, HoldCo will form a wholly owned, new subsidiary, NewCo. Pursuant to a merger agreement ("Merger Agreement") between KCPL, HoldCo and NewCo, KCPL then will merge with NewCo. A copy of the Merger Agreement is attached hereto as Exhibit 1. Under the terms of the Merger Agreement, the separate existence of NewCo will cease and KCPL will continue as the surviving corporation of the merger. At this point, KCPL will be a wholly owned subsidiary of HoldCo. As a part of the merger, each outstanding share of KCPL stock automatically converts into the right to receive one share of HoldCo stock. At the time of the merger, each share of KCPL's various series of preferred stock will be converted into one share of an identical series of HoldCo preferred stock. The pro forma balance sheets and income statements of KCPL before and after the proposed restructuring plan are attached hereto as Exhibit 2. Once the merger is consummated, KCPL will dividend its stock of KLT and GPP to HoldCo. At this point, HoldCo will be a publicly held corporation that owns 100% of KCPL, KLT and GPP.

KCPL anticipates that within a certain period of time following the completion of the reorganization it will form a service company ("ServCo"). ServCo will provide certain shared services to the affiliated companies. A form of the General Services Agreement (GSA) that will be used for the provision of support services is attached hereto as Exhibit 3. A copy of KCPL's cost allocation manual ("CAM"), which describes the bases currently used by KCPL for allocating certain costs related to shared services, is attached hereto as Exhibit 4. The new holding company system will continue to use

service agreements, work orders and a CAM to assure that costs are properly tracked and assigned.

II. Regulation Under PUHCA

Upon completion of the reorganization, HoldCo will register with the Securities and Exchange Commission ("SEC") and become subject to additional regulation under PUHCA. A central purpose of PUHCA is "to provide a mechanism to create conditions under which effective Federal and State regulation will be possible." (See, S. 2796, 74th Cong., 1st Sess. (1935)). Accordingly, PUHCA contains a number of provisions designed to promote effective state regulation. Importantly, PUHCA does not give the SEC jurisdiction over the rates, terms and conditions of utility service. KCPL will continue to be subject to the authority of the Kansas Corporation Commission with respect to rates, terms and conditions of utility service in Kansas.

State regulation is enhanced under PUHCA by, for example, the provision which states that the SEC may not authorize the issuance of securities or the acquisition of assets unless the applicant has complied with state law. State regulation of certain affiliate relationships is strengthened since Sections 32 and 34 of PUHCA condition the ability of an Exempt Wholesale Generator or an Exempt Telecommunications Company to enter into transactions with public utility affiliates on obtaining state commission approval. Under Section 33 of PUHCA, similar state consents are required in order to invest in foreign utilities. Consistent with the purpose of assuring that effective state regulation will continue, KCPL has agreed to a number of additional conditions set forth more fully in Section IV of this Application. In addition to helping assure effective state regulation, PUHCA regulates other aspects of holding company operations. Section 11

limits registered holding company systems to ownership of a single integrated public utility system, which is defined as a group of related operating properties within a confined geographic region susceptible to local management. Non-utility businesses may be acquired and retained only if they are “reasonably incidental, or economically necessary or appropriate” to the operations of the integrated public-utility system.

Section 7 of PUHCA prescribes standards for the type and amount of securities for the registered holding company and subsidiaries. Registered companies and subsidiaries must obtain SEC approval before acquiring any securities, utility assets, or any other interest in any business.

The SEC and the regulatory scheme under PUHCA encourage the use of service companies, which are subject to extensive regulation. A service company is a subsidiary of a registered holding company that is formed in order to provide centralized management and administrative services to system companies. Service companies permit registered systems, including public utilities, to capture economies of scale and other efficiencies by reducing duplication of corporate support functions by each of the affiliate companies in the system. There are now approximately 30 registered holding company systems (a doubling in number since 1995) and virtually all of these systems use a service company for corporate support activities.

Service, sales and construction contracts between a system service company and associate companies in the same holding company system must be performed “economically and efficiently” for the benefit of such associate companies generally at cost and all costs must be fairly and equitably allocated. Service companies use a work order system, make extensive use of accounting controls, and have significant reporting

requirements including the obligation to file annual reports which describe affiliate transactions.

PUHCA regulates other affiliate transactions as well. A registered holding company may not borrow or receive any extensions of credit from any system public utility. In addition, there are regulations concerning the ability of system companies to make intra-system loans, pay dividends, acquire or dispose of property, or solicit proxies.

As shown in the next section, forming a holding company promises benefits. And, though KCPL believes-and the SEC itself agrees-that the many provisions of PUHCA are anachronistic and unnecessary, registration under PUHCA will result in greater, not lesser regulation of system operations.

III. Benefits of the Restructuring

Increased competition in capital and energy markets has required traditional utilities to diversify their business operations and, in particular, to invest in businesses offering higher growth opportunities. The ability to grow earnings at a rate higher than can be expected from the traditional utility business is a key to KCPL's success, if not its survival as a stand-alone family of companies. During the past several years, KCPL, through its subsidiary, KLT, has developed business interests in, for example, telecommunications, gas production and development, and energy services. With the recent establishment of a new subsidiary, GPP, KCPL has signaled its intention to participate in the dramatic growth of the competitive wholesale generation market. The reorganization will facilitate the efforts of KCPL's affiliated competitive businesses to access more markets and will allow them to pursue business opportunities with greater flexibility and speed.

The Kansas Commission has historically honored the policy that the corporate structure of a utility company should be the prerogative of the company's management, absent a compelling public interest need for the Commission to intervene. The Commission also has evidenced an appreciation for the growing importance of maintaining a company's competitive operations structurally separate from its regulated operations. The proposed reorganization will further separate KCPL's retail electric customers from the Company's other business interests. In the future, those competitive businesses will be conducted in subsidiaries of HoldCo - not in subsidiaries of KCPL. Depending upon the nature of the transaction, and considering the commitments made in the next section of this Application, any significant business dealings between KCPL and its affiliated companies will be subject to review and documentation, and to the approval and/or ratemaking authority of this Commission, the SEC and/or the Federal Energy Regulatory Commission ("FERC"). In addition, KCPL's GSA and CAM, Exhibits 3 and 4, contain accounting procedures that ensure a proper allocation of costs between KCPL and its affiliates.

To reiterate, this reorganization will not involve the transfer of any assets, including generating assets, from KCPL to affiliates. KCPL will remain a vertically integrated electric utility. This Commission will continue to have the statutory authority to ensure that KCPL's retail electric customers receive electric service that is safe, reliable and reasonably priced.

IV. State Jurisdictional Issues

In the merger proceeding of Western Resources, Inc. and KCPL, Docket No. 97-WSRE-676-MER, the Commission approved the proposed merger of the companies, recognizing that the merger could result in Western Resources losing its exemption under the PUHCA. In its order dated September 28, 1999, the Commission set out requirements designed to protect the Commission's jurisdiction over the utility should it lose its exempt status. Similar requirements have been established by the Missouri Public Service Commission ("MPSC"). In *Re Western Resources, Inc./Kansas City Power & Light Company*, Case No. EM-97-515, and *Re Union Electric Company/Central Illinois Public Service Company*, Case No. EM-96-149, the MPSC approved settlement agreements designed to ensure the protection of customers of Missouri utilities that may have become subsidiaries of a Registered Holding Company. KCPL hereby agrees to those same conditions, as set forth below. KCPL further commits that it and its affiliates will continue to comply with the provisions of K.S.A. 66-1213, 66-1401, and 66-1402, concerning affiliate transactions, after the reorganization is completed.

a. Access to Books, Records and Personnel

KCPL agrees to make available to the Commission Staff, and the Citizen's Utility Ratepayer's Board ("CURB"), at reasonable times and places, all books, records, employees and officers of KCPL and any affiliate of KCPL as provided under applicable law and Commission rules; provided that KCPL and any affiliate or subsidiary of HoldCo shall have the right to object to such production of records or personnel on any basis under applicable law and Commission rules, excluding any objection that such records

and personnel of affiliates or subsidiaries are not subject to the Commission's jurisdiction and statutory authority, including objections based on the operation of PUHCA.

b. Contracts Required to be Filed with the SEC

All contracts, agreements or arrangements of any kind, including any amendments thereto, between KCPL and any affiliate, associate, holding, mutual service, or subsidiary company within the same holding company system, as these terms are defined in 15 U.S.C. § 79b, as subsequently amended, that are required to be filed with and/or approved by the SEC pursuant to PUHCA, as subsequently amended, shall be conditioned upon the following without modification or alteration: Neither KCPL nor any of its affiliates, will seek to overturn, reverse, set aside, change or enjoin, whether through appeal or the initiation or maintenance of any action in any forum, a decision or order of the Commission which pertains to recovery, disallowance, deferral or ratemaking treatment of any expense, charge, cost or allocation incurred or accrued by KCPL in, or as a result of, a contract, agreement, arrangement, or transaction with any affiliate, associate, holding, mutual service or subsidiary company on the basis that such expense, charge, cost or allocation has itself been filed with or approved by the SEC or was incurred pursuant to a contract, arrangement, agreement or allocation method that was filed with or approved by the SEC.

c. Electric Contracts Required to be Filed with FERC

All wholesale electric energy or transmission service contracts, tariffs, agreements or arrangements of any kind, including any amendments thereto, between KCPL and any HoldCo subsidiary or affiliate, that are required to be filed with and/or approved by the FERC, pursuant to the Federal Power Act, as subsequently amended, shall be conditioned

upon the following without modification or alteration: Neither KCPL nor any of its affiliates will seek to overturn, reverse, set aside, change or enjoin, whether through appeal or the initiation or maintenance of any action in any forum, a decision or order of the Kansas Commission which pertains to recovery, disallowance, deferral or ratemaking treatment of any expense, charge, cost or allocation incurred or accrued by KCPL in, or as a result of, a wholesale electric energy or transmission service contract, agreement, arrangement or transaction on the basis that such expense, charge, cost or allocation has itself been filed with or approved by FERC, or was incurred pursuant to a contract, arrangement, agreement or allocation method that was filed with or approved by FERC.

d. No Pre-Approval of Affiliated Transactions

KCPL agrees to provide the Commission and CURB with copies of all documents that must be filed with the SEC or FERC relating to affiliate transactions. KCPL and HoldCo further agree that the Commission may make its determination regarding the ratemaking treatment to be accorded these transactions in a subsequent ratemaking proceeding.

**e. Contingent Jurisdictional Stipulation Regarding
Affiliate Contracts Required to be Filed With FERC**

KCPL agrees that in the exclusive event that any court with jurisdiction over KCPL, HoldCo or any of their affiliates or subsidiaries issues an opinion or order that invalidates a decision or order of the Commission pertaining to recovery, disallowance, deferral or ratemaking treatment of any expense, charge, cost or allocation incurred or accrued by KCPL on the basis that such expense, charge, cost or allocation has itself been filed with or approved by FERC, then the Contingent Jurisdictional Stipulation, attached

hereto as Exhibit 5, shall apply to FERC filings according to its terms, at the option of the Commission.

**f. Contingent Jurisdictional Stipulation Regarding
Affiliate Contracts Required to be Filed with SEC**

KCPL agrees that in the exclusive event that any court with jurisdiction over KCPL, HoldCo or any of their affiliates or subsidiaries issues an opinion or order that invalidates a decision or order of the Commission pertaining to recovery, disallowance, deferral or ratemaking treatment of any expense, charge, cost or allocation incurred or accrued by KCPL on the basis that such expense, charge, cost or allocation has itself been filed with or approved by SEC, then the Contingent Jurisdictional Stipulation, attached hereto as Exhibit 5, shall apply to SEC filings according to its terms, at the option of the Commission.

3. A copy of the Merger Agreement, in substantially final form, between KCPL, HoldCo and NewCo is attached hereto as Exhibit 1. In accordance with the Merger Agreement, KCPL and NewCo will merge. NewCo will cease to exist, while KCPL will continue as the surviving corporation. After the merger, KCPL will continue to be a regulated "electric public utility" and "public utility" as defined by Kansas law, and will continue to provide electric service in KCPL's current service area under tariffs.

4. GPP is not an "electric public utility" or a "public utility" as those terms are defined in K.S.A. 66-101a and 66-104, respectively, inasmuch as it does not own utility assets located in Kansas, or generate or sell electricity at this time.

5. As described above, the proposed transactions are not detrimental to the public interest and will in fact benefit consumers and the public interest. The proposed transaction will strengthen the financial and operational separation between KCPL's retail electric business and the competitive business activities of KCPL's affiliated companies.

6. The proposed merger will not have any impact on KCPL's Kansas jurisdictional operations.

7. A certified copy of the resolutions of the Board of Directors of KCPL authorizing the Company to proceed with implementation of the restructuring is attached hereto as Exhibit 7 and incorporated herein by reference.

8. Pro forma balance sheets and income statements for KCPL with adjustments showing the effects of the proposed restructuring and capitalization are attached hereto as Exhibit 2.

9. The requirements of K.S.A. 66-131 do not apply to the proposed transaction. KCPL already possesses a certificate of public convenience and necessity. The proposed restructuring plan will not alter KCPL's current service area or affect rights and obligations under its certificate of public convenience and necessity.

10. Pursuant to K.S.A. 66-1401(2)(g), HoldCo, once formed, will file with the Commission an agreement to keep the Commission informed as to all affiliate transactions between KCPL and HoldCo, and to submit to the jurisdiction of the KCC insofar as those transactions affect the rate or charge to be made by KCPL.

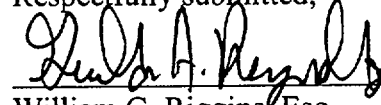

11. The proposed restructuring does not involve the transfer of any of KCPL-owned assets. Accordingly, there will be no impact on the tax revenues of any political subdivision where KCPL's structures, facilities or equipment are located.

12. The Commission has explicit statutory authority to grant KCPL's requests pursuant to the above-cited statutes and pursuant to its broad grant of authority under K.S.A. 66-101, *et seq.*

WHEREFORE, Kansas City Power & Light Company respectfully requests the Commission to issue its Order:

1. Granting KCPL the authority to restructure and reorganize itself as discussed herein.
2. Granting KCPL the authority to merge with NewCo with KCPL being the surviving corporation.
3. Granting KCPL the authority to convert its stock to HoldCo stock, as set forth in detail herein.
4. Granting such other relief as may be deemed necessary and appropriate to accomplish the purposes of the Application and to consummate the restructuring transaction, as described herein.

Respectfully submitted,

WITNESSETH:

WHEREAS, Client Companies, including **HOLDING COMPANY**, which has filed for registration under the terms of the Public Utility Holding Company Act of 1935 (the "Act") and its other subsidiaries, desire to enter into this agreement providing for the performance by Service Company for the Client Companies of certain services as more particularly set forth herein;

WHEREAS, to maximize efficiency, and to achieve reorganization related savings, the Client Companies desire to avail themselves of the advisory, professional, technical and other services of persons employed or to be retained by Service Company, and to compensate Service Company appropriately for such services;

NOW, THEREFORE, in consideration of these premises and of the mutual agreements set forth herein, the Parties agree as follows:

Section 1. Agreement to Provide Services

Service Company agrees to provide to Client Companies and their subsidiaries, if any, upon the terms and conditions set forth herein, the services hereinafter referred to and described in Section 2, at such times, for such period and in such manner as Client Companies may from time to time request. In providing such services, Service Company may arrange, where it deems appropriate, for the services of such experts, consultants,

advisers and other persons with necessary qualifications as are required for or pertinent to the provision of such services.

Section 2. Services to be Provided

In addition to those identified in Schedule 2, Service Company shall provide such additional general or special services, whether or not now contemplated, as Client Companies may request from time to time and Service Company determines it is able to provide.

Notwithstanding the foregoing paragraph, no change in the organization of the Service Company, the type and character of the companies to be serviced, the factors for allocating costs to associate companies, or in the broad general categories of services to be rendered subject to Section 13 of the Act, or any rule, regulation or order thereunder, shall be made unless and until the Service Company shall first have given the SEC written notice of the proposed change not less than 60 days prior to the proposed effectiveness of any such change. If, upon the receipt of any such notice, the SEC shall notify the Service Company within the 60-day period that a question exists as to whether the proposed change is consistent with the provisions of Section 13 of the Act, or of any rule, regulation or order thereunder, then the proposed change shall not become effective unless and until the Service Company shall have filed with the SEC an appropriate declaration regarding such proposed change and the SEC shall have permitted such declaration to become effective.

Section 3. New Subsidiaries

New direct or indirect subsidiaries of HOLDING COMPANY, which may come into existence after the effective date of this Service Agreement, may become additional client companies of Service Company and subject to this General Services Agreement with Service Company. The parties hereto shall make such changes in the scope and character of the services to be provided and the method of assigning, distributing or allocating costs of such services as may become necessary to achieve a fair and equitable assignment, distribution, or allocation of Service Company costs among associate companies including the new subsidiaries.

Section 4. Compensation of Service Company

As compensation for such services rendered to it by Service Company, Client Companies hereby agree to pay Service Company the cost of such services, computed in accordance with applicable rules and regulations (including, but not limited to, Rules 90 and 91) under the Act and appropriate accounting standards.

The services described herein or contemplated to be provided hereunder shall be directly assigned, distributed or allocated by activity, project, program, work order or other appropriate basis.

Section 7. Payment

Payment shall be by making remittance of the amount billed or by making appropriate accounting entries on the books of the companies involved. Invoices shall be prepared on a monthly basis for services provided hereunder.

Section 8. Holding Company

Except as authorized by rule, regulation, or order of the SEC, nothing in this Agreement shall be read to permit HOLDING COMPANY, or any person employed by or acting for HOLDING COMPANY, to provide services for other Parties, or any companies associated with said Parties.

Section 9. Client Companies

Except as limited by Section 8, nothing in this Agreement shall be read to prohibit Client Companies or their subsidiaries from furnishing to other Client Companies or their subsidiaries services herein referred to, under the same terms and conditions as set out for Service Company.

Section 10. Effective Date and Termination

This Agreement is executed subject to the consent and approval of all applicable regulatory agencies, and if so approved in its entirety, shall become effective as of the date the reorganization of KCPL is completed, and shall remain in effect from said date unless terminated by mutual agreement or by any Party giving at least 60 days' written notice to the other Parties prior to the beginning of any calendar year, each Party fully reserving the right to so terminate this Agreement.

This Agreement may also be terminated or modified to the extent that performance may conflict with any rule, regulation or order of the SEC adopted before or after the making of this Agreement.

Section 11. Access to Records

For the seven years following a transaction under this Agreement, the Client Company may request access to and inspect the accounts and records of the Service Company, provided that the scope of access and inspection is limited to accounts and records that are related to such transaction.
