The Security Plan, Security Personnel Training and Qualification Plan, and Safeguards Contingency Plan have been revised to replace/modify the description of the security organization with a new organizational structure. New descriptions have been added for Corporate Nuclear Security, the Regional Operating Group (ROG), and Site Nuclear Security. Other changes, including position and title name changes, were also required. All changes are considered editorial and were made due to the company's reorganization resulting from the merger between Unicom Corporation and PECO Energy Company.
