Christopher Gratton

Plas Systems Branch
Remcon Systems Branch

CT: Can check on the energy of the plane to
determine elevated vs. ground-level release.
We will check on this.

NRR: NUREG-1353

NUREG/CR-6451

NUREG/CR-4982

CT: More volatile forms of FP's

Rem on fatalities?

NRR: Don't need fatalities. Dose is enough.

Need calc at 1 yr with release of entire
inventory.

CT: Think about specifying exactly what calc. you
want whether objective of calc is

11

NRE: Emergency Planning
Safeguards

Table 4.2

ET: (0.7 to 1 King) - request for work
(- hope see us before you send it.

How soon do you need it?

NRE: In about 2 months.
Commission Dir's meeting on Monday

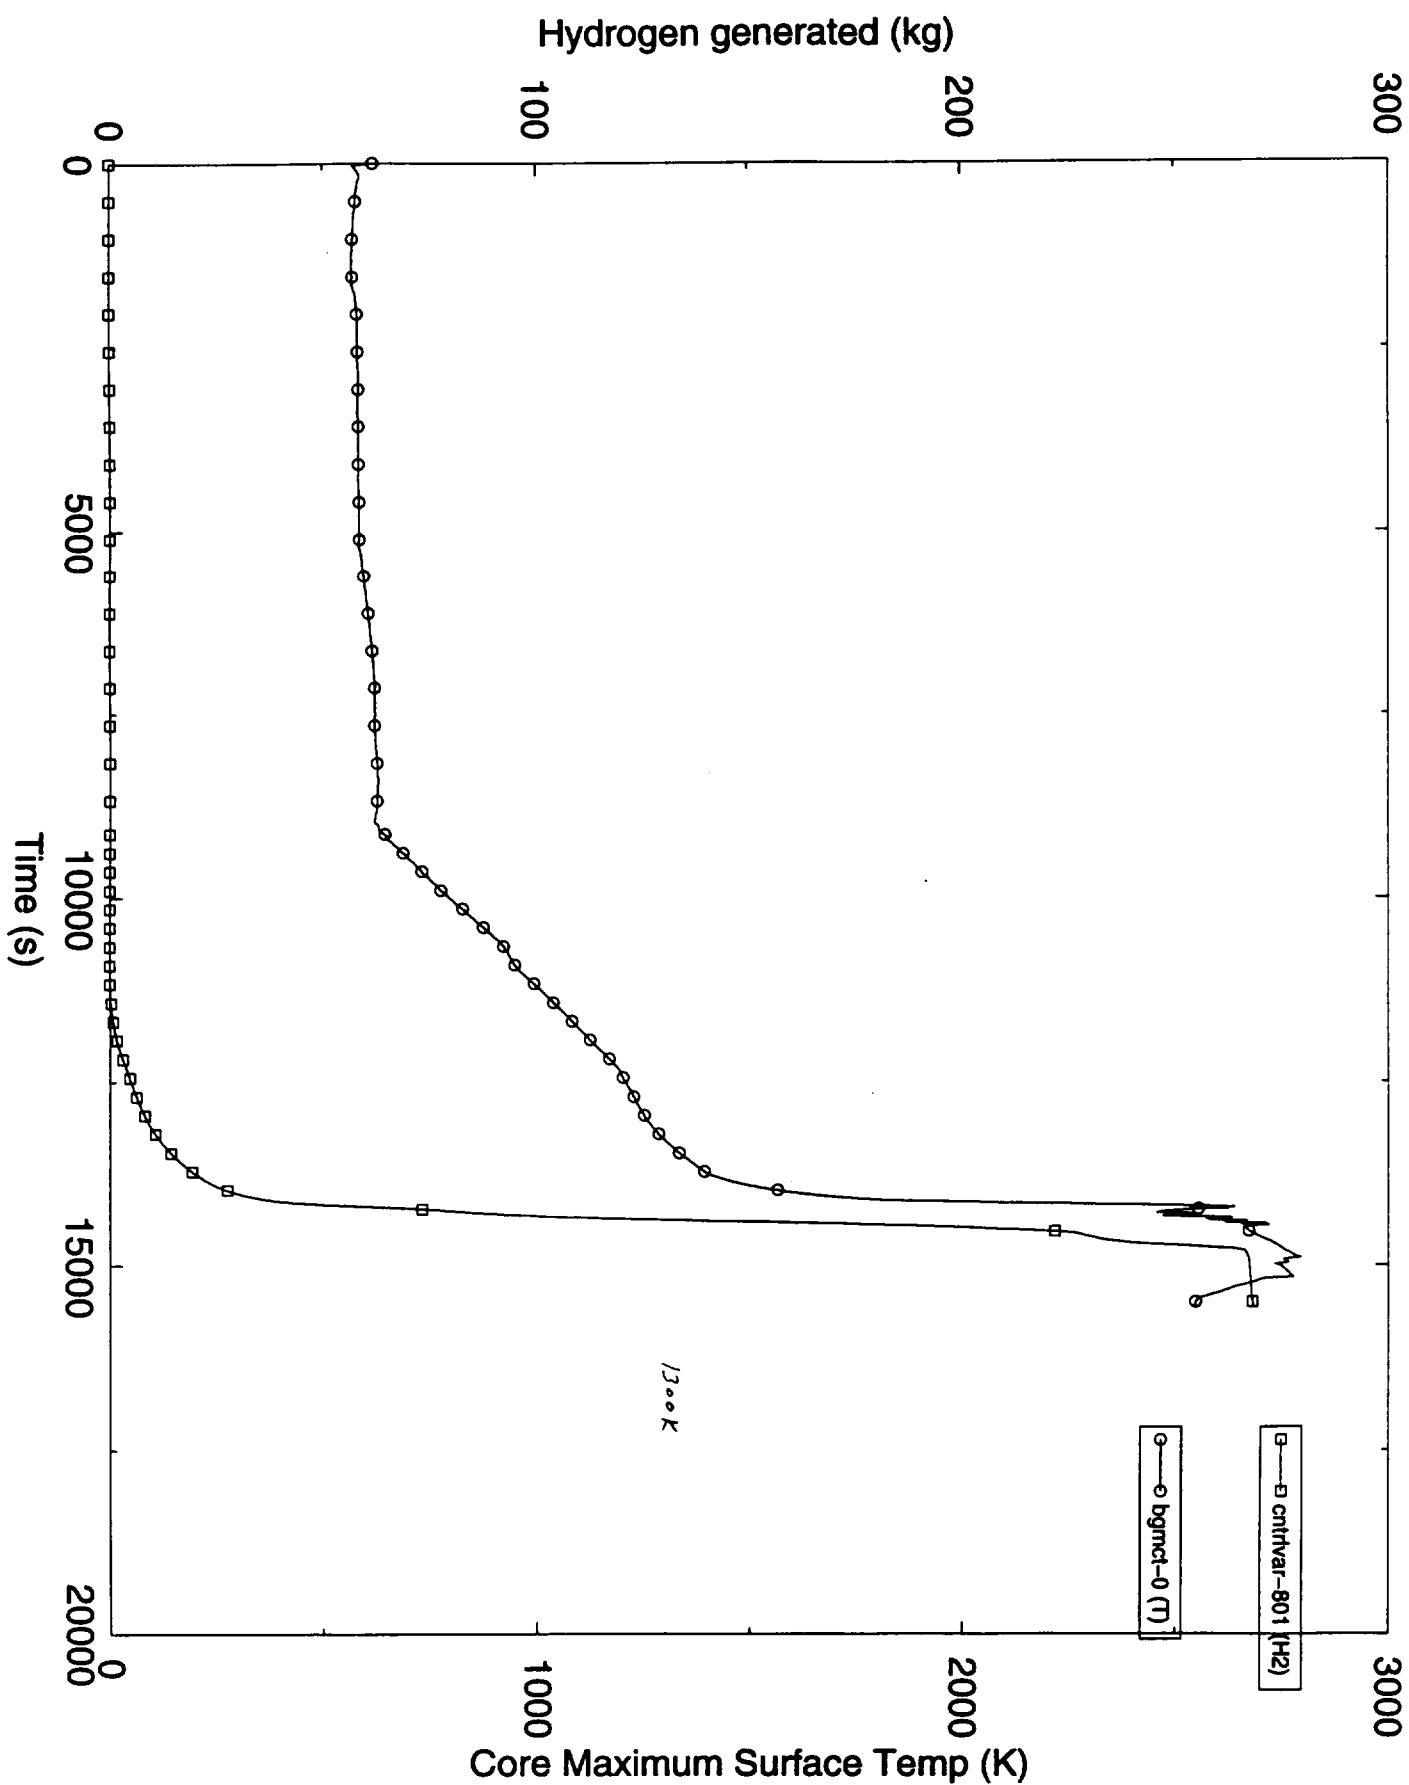

Energy of the plane

~~10~~ 10^{-6} eV/m²/yr

seismically induced failure of pool

Code developed by BNL - not validated

SR5 Case 3
