Subject: Upcoming meeting with NEI

Last week, I contacted Diane Jackson on the planned meeting with NEI on June 7 on spent fuel pools. She said that the meeting would be on June 7 at 9:00 am in the ACRS meeting room. I have not heard from Diane or you since that she told me that. Is the meeting still planned for June 7? What will be discussed at the meeting? If there will be any NRC presentations, could I get a copy of them? Will my MACCS calculations be discussed in any detail?
