Diane,

Here is the information you requested. Also, what is the latest on the upcoming meeting with PNNL on June 24 and 25. Is it still at 8:30 am in O-10-B-6?

MACCS2: D. Chanin, M. L. Young, SAND97-0594  
CRAC2: Lynn T. Ritchie, Jay D. Johnson, Roger M. Blond, SAND81-1994

Thanks.  
Jason

Jason - please look up:

author(s)???, "Code Manual for MACCS2," NUREG/CR-6613 (contractor report number??), May 1998.

author(s)???, "Calculations of Reactor Accident Consequences Version 2, CRAC2: Computer Code,"  
NUREG/CR-2326( contractor report number??), February 1983.

The contractor report number should appear below the NREG/CR number on the cover.

if it was done by BNL - it would look like "BNL-NUREG-12345"  
if SNL - "SAND12-1234"

Thanks - Diane
