About 5 years

F/5

Put together packing of papers

Ru comes out in air

Stem

FP release experiments

- oxidize cladding

- ^{then} work a fuel

-

Mount 75 and 100% oxidized, ^{clad} before start
to release Re Ruthenium

Ru

Segment of fuel rod
end
press caps on

let boil away

oxidizes, cracks, ^{releases} FP / no pre-drilled hole

Runs longer experiments than H₂/VI

~~1875~~

Internet: jhs1@nrc.gov

Ray Dickson also working w/ L Dickson on these
FP release experiments
