The Chairman of the CRGR, Joe Murphy, and his staff have reviewed the final draft of Regulatory Guide DG-1069 "Fire Protection Program for Nuclear Power Plants During Decommissioning and Permanent Shutdown," you sent to Mr. Murphy on February 26, 2001, for comment.

The Regulatory Analysis in this Reg. Guide refers to Federal Register Pages 61 FR 39278-39304 of July 29, 1996. The "Backfit Analysis" on page 39296 confirms that the subject of this Reg. Guide is not subject to 10 CFR 50.109 backfitting requirements. Even so, the wording in this Reg. Guide makes it clear that ". . .compliance with regulatory guides is not required." Hence, Regulatory Guide DG-1069 does not need to be reviewed by the CRGR members.

If you have any questions regarding this please contact me,
