Subject: Vermont Yankee Nuclear Power Station
License No. DPR-28 (Docket No. 50-271)
Final Response to Notice of Violation – Case Number 1-1999-027

In Reference (a), Vermont Yankee indicated that we wanted to review additional NRC information prior to deciding whether to submit a further response to the subject violation. We have received and reviewed the additional information. We have found nothing in this information that changes our opinion as expressed at the pre-decisional conference and in our violation response letter dated September 11, 2000 (BVY 00-76). VY continues to believe that no willful or deliberate actions were taken by the individual cited in Case Number 1-1999-027. Nevertheless, we have decided not to pursue this any further and consider the issue closed.

Sincerely,

VERMONT YANKEE NUCLEAR POWER CORPORATION

Vice President, Operations
