LICENSEE: Florida Power Corporation

FACILITY: Crystal River Plant, Unit 3

SUBJECT: SUMMARY - FEBRUARY 14, 2001, MEETING REGARDING UPCOMING
LICENSING ISSUES AT CRYSTAL RIVER UNIT 3

On February 14, 2001, Ms. Sherry Bernhoft of Progress Energy met in a public meeting with members of the U.S. Nuclear Regulatory Commission (NRC) staff at NRC Headquarters in Rockville, Maryland. Progress Energy requested this meeting to discuss upcoming licensing issues at Crystal River Unit 3 (CR-3).

Summary of Meeting Discussions and Conclusions

The meeting was held with Ms. Sherry Bernhoft (CR-3), to discuss the status of licensing issues currently under review at the NRC. A summary of planned CR-3 licensing submittal activities with their prioritization was also discussed. A significant issue discussed was license amendment request #252 (Re-rolling for Upper and Lower Once-Through Steam Generator Tubesheets), and the ongoing discussions between Progress Energy and the Babcock & Wilcox Owners Group. The current plan is for CR-3 to submit a "stand-alone" request separate from the generic Owner's Group request in early March 2001.

A handwritten signature in cursive script, reading "John M. Goshen", is positioned above the typed name.
