SUBJECT: IMPROVED TECHNICAL SPECIFICATIONS CONVERSION REVIEW
SCHEDULE - NORTH ANNA POWER STATION UNITS 1 AND 2
(TAC Nos. MB0799 AND MB0800)

Dear Mr. Christian:

Enclosed please find the review schedule for the Improved Technical Specifications for North Anna Units 1 and 2. We have already discussed this schedule with members of your staff. The review schedule is very optimistic, but can be achieved if your staff can meet the scheduled milestones. In addition, it will be necessary for us to quickly resolve any issues or open items identified during the review in order to meet this schedule.

To assist in ensuring efficient resource allocation and prompt identification of problems, we request that you notify us by letter should circumstances arise that prevent your meeting a milestone date. Similarly, we will notify you of any situations affecting our ability to meet the enclosed schedule. This will allow us to either take actions necessary to maintain the schedule or to mutually agree on a revised plan.

Should you have any questions regarding this letter, please contact me at 301-415-1161, or Tommy Le of my staff at 301-415-1458.

Sincerely,

/RA/

William D. Beckner, Chief
Technical Specifications Branch
Division of Regulatory Improvement Programs
Office of Nuclear Reactor Regulation
