

UNITED STATES  
ATOMIC ENERGY COMMISSION  
WASHINGTON 25, D. C.

APR 19 1956

Nuclear Development Corporation of America  
5 New Street  
White Plains, New York

Attention: Mr. Stanley H. Shippenberg, Business Manager

Gentlemen:

Section 70.32 of Part 70, Title 10, Chapter 1, Code of Federal Regulations provides that the Commission may incorporate in your special nuclear material license requirements for reports and records concerning activities under your license.

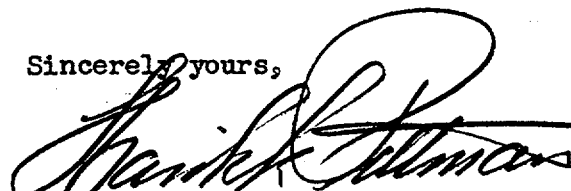

We are currently preparing regulations which, following established practice, will be issued for industry comment prior to being included in the CFR. In the meantime, we ask that you utilize Form AEC-388 to cover transfers of special nuclear material and Form AEC-578 to report your material activity.

It is believed the instructions for preparation and distribution of Form AEC-388 are self-explanatory. The report to be made on Form AEC-578 should be submitted as of the last day of the calendar month in which you had a receipt or a shipment and as of June 30 of each year.

Enclosed you will find 50 copies of Form AEC-388, sufficient to permit about ten transfers and 15 copies of Form AEC-578, sufficient to prepare about three reports. Additional copies will be supplied upon request.

Your cooperation is requested.

Sincerely yours,

H. L. Price, Director,  
Division of Civilian Application

Enclosures:  
As stated above

bcc: D. F. Musser, NMM
