United States Atomic Energy Commission  
Washington 25, D. C.

Attention: Mr. Lyall Johnson, Chief  
Division of Licensing

Gentlemen:

In accordance with our recent telephone conversation, please advised that we wish to incorporate our application for Radioisotope Procurement, with our application for Special Nuclear Material, filed with your office on October 6, 1955.

In addition, we wish to amend our application of October 6, 1955 and herewith request that Nuclear Development Corporation of America be permitted to receive and store Special Nuclear Material up to a maximum of 2,000 grams.

We have reviewed this revision with our technical staff and feel that there is no criticality danger from this quantity of enrichment. In all other respects our application remains the same.

We trust that the above information will enable you to process our applications with a minimum of delay.

Very truly yours,

NUCLEAR DEVELOPMENT CORPORATION of AMERICA
