Washington, D.C. 20500

Dear Mr. President:

I enclose the United States Nuclear Regulatory Commission's (NRC's) Fiscal Year 2000 Performance and Accountability Report and our Inspector General's Fiscal Year 2000 Performance Report. These reports were prepared in accordance with the Reports Consolidation Act of 2000 and the Government Performance and Results Act of 1993.

In accordance with the Reports Consolidation Act of 2000, I have assessed the completeness and reliability of the program and financial data contained in the NRC's Fiscal Year 2000 Performance and Accountability Report based on draft evaluation criteria issued by the Office of Management and Budget. I believe that the data are complete and reliable since actual performance and financial data have been used throughout the report and there is neither a refusal nor a reluctance by agency managers or decision makers to use the data in carrying out their responsibilities. The report also discusses opportunities to improve the quality of the performance data and we are taking action to make these improvements.

The NRC places a high priority on sound management and public accountability. We look forward to working with you to deliver the best possible results for the government and the American people.
