Subject: Re: Spent Fuel Pool Accident Consequences

After I prepare Appendix 4A to the Spent Fuel Pool Accident Risk Study, then I will write the public comment responses.

>>> Tanya Eaton 07/07 1:59 PM >>>
Good afternoon Jason,

George forwarded this email to me. What about the public comment responses? Did you also send those already to George. If so, I can ask him to forward your responses to me, since I am putting all the public comment responses together in a package. I recall you stating that some of them were already addressed through a response to the ACRS. Please advise.

Thanks,

Tanya

In our June 28 meeting, we agreed to provide tables of consequence results by July 7. This e-mail message forwards those tables. I am now directing my effort to preparing Appendix 4A to the Spent Fuel Pool Accident Risk Study.
