Subject: Baxter Healthcare Corporation Amendment Request

Dear Jay and Janice:

Based a on letter dated March 13, 2001, which reads: "...BHC will limit the quantity of product to be irradiated in order to not exceed the small quantity of flammable material in the radiation room at one time.

Hereby, Baxter wants to withdraw the request for authorization submitted on December 13, 2000."

I got the original of the letter. If you want, you can void the licensing action and I will put together a letter for them notifying them of the final withdraw of the licensing action.

If you have any question, I am available at 404-403-9322.

Jose
