

March 2, 2001

MEMORANDUM TO: Chairman Meserve
Commissioner Dicus
Commissioner Diaz
Commissioner McGaffigan
Commissioner Merrifield

FROM: Janice Dunn Lee, Director
Office of International Programs

SUBJECT: NUCLEAR SAFETY REVIEW FOR THE YEAR 2000

A copy of the IAEA draft Nuclear Safety Review for the Year 2000 is attached for your information. A final version will be presented to the Board of Governors meeting in September 2001.

The review is a useful digest of current international safety developments, activities and issues. I especially recommend pages 27-29, which briefly introduce the subjects to be discussed in the International Conference on Topical Issues in Nuclear Safety, which will be held in Vienna, Austria on September 3-6, 2001. The subjects are risk-informed decision-making; influence of decommissioning and other external factors on safety; indicators of operational safety performance for nuclear power reactors; safety of fuel cycle facilities; safety of research reactors; and maintaining competence in nuclear safety. A keynote speech on Risk-Informed Regulation will be presented at the conference by Sam Collins, Director, Nuclear Reactor Regulation.
