

**REPORT OF PROPOSED ACTIVITIES IN
NON-AGREEMENT STATES, AREAS OF EXCLUSIVE
FEDERAL JURISDICTION, OR OFFSHORE WATERS***(Please read the instructions before completing this form)*

Estimated burden per response to comply with this mandatory collection request: 15 minutes. This notification is required so that NRC may schedule inspection of the activities to ensure that they are conducted in accordance with requirements for protection of the public health and safety. Send comments regarding burden estimate to the Records Management Branch (T-8 EB), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, or by Internet e-mail to bja1@nrc.gov, and to the Desk Officer, Office of Information and Regulatory Affairs, NEOB-10202, (3150-0013), Office of Management and Budget, Washington, DC 20503. If a means used to impose an information collection does not display a currently valid OMB control number, the NRC may not conduct or sponsor, and a person is not required to respond to, the information collection.

- All information in this report is true and complete.
- I have read and understand the provision of the general license 10 CFR 150.20 reprinted on the instructions of this form; and I understand that I am required to comply with these provisions as to all byproduct, source, or special nuclear material which I possess and use in non-Agreement States or offshore waters under the general license for which this report is filed with the U.S. Nuclear Regulatory Commission.
- I understand that activities, including storage, conducted in non-Agreement States under general license 10 CFR 150.20 are limited to a total of 180 days in calendar year. With the exception of work conducted in off-shore waters, which is authorized for an unlimited period of time in the calendar year.
- I understand that I may be inspected by NRC at the above listed work site locations and at the Licensee home office address for activities performed in non-Agreement States or offshore waters.
- I understand that conduct of any activities not described above, including conduct of activities on dates or locations different from those described above or without NRC authorization, may subject me to enforcement action, including civil or criminal penalties.

	AMENDMENT NUMBER: New License

A. and B. For the possession and use in Humboldt Scientific Incorporated Model 5001 series gauges for the measurement of moisture, surface density, or asphalt content of construction devices.

C. and D. For the possession and use in Troxler Electronics Laboratories Model 3400 series gauges for the measurement of moisture, surface density, or asphalt content of construction devices.

CONDITIONS

10. Licensed material may be used only at the licensee's facilities at 20 West Howell Street, Boston, Massachusetts 02125 and at temporary job sites anywhere in the Commonwealth of Massachusetts except areas under exclusive Federal jurisdiction. This condition does not prohibit use in states under the jurisdiction of the U. S. Nuclear Regulatory Commission (NRC) or Agreement States under reciprocity procedures which may be established by the NRC or those states.
11. This license is subject to an annual fee as determined by the Executive Office for Administration and Finance.
12.
 - A. Licensed material shall only be used by, or under the supervision and in the physical presence of Timothy Greenwood, or individuals who have successfully completed the manufacturer's training program for gauge users and who have been designated by the Radiation Safety Officer. The licensee shall maintain records of individuals designated as users for three (3) years following the last use of licensed material by the individual.
 - B. The Radiation Safety Officer for the activities authorized by this license is Timothy Greenwood.
13. Sealed sources or source rods containing licensed material shall not be opened or sources removed or detached from source rods or gauges by the licensee, except as specifically authorized.
14.
 - A. The sources specified in Item 7 shall be tested for leakage and/or contamination at intervals not to exceed six (6) months. Any source received from another person

which is not accompanied by a certificate indicating that a test was performed within six (6) months before the transfer shall not be put into use until tested.

- B. Any source in storage, and not being used, need not be tested. When the source is removed from storage for use or transfer to another person, it shall be tested before use or transfer. No sealed source shall be stored for a period of more than 10 years without being tested for leakage and/or contamination.
 - C. Tests for leakage and/or contamination shall be capable of detecting the presence of 185 Bq (0.005 μ Ci) of radioactive material on the test sample. If the test reveals the presence of 185 Bq (0.005 μ Ci) or more of removable contamination, the source shall be removed from service and decontaminated, repaired or disposed of. A report shall be filed with the Director of the Radiation Control Program within five (5) days of the date the leak test result is known. The report shall specify the source(s) involved, the test result(s) and the corrective action(s) taken. Records of leak test results shall be kept in units of becquerel or microcurie and shall be maintained for inspection by the Agency.
 - D. This license does not authorize analysis of leak test samples. However, the licensee is authorized to collect leak test samples for analysis by persons specifically authorized by the Agency, an Agreement State, a Licensing State or U. S. Nuclear Regulatory Commission to perform such services.
15. The licensee shall not acquire licensed material in a sealed source or in a device that contains a sealed source unless the source or device has been registered with the Agency pursuant to 105 CMR 120.128(N) or under the equivalent regulations of the U.S. Nuclear Regulatory Commission, an Agreement State or Licensing State.
 16. The licensee shall conduct a physical inventory every six (6) months to account for all sealed sources received and possessed under the license. The records of the inventories shall be maintained until inspection by the Agency and shall include the quantities and kinds of radioactive material, the locations of the sealed sources, and the dates of the inventories.
 17. Each portable nuclear gauge shall have a lock or outer locked container designed to prevent unauthorized or accidental removal of the sealed source from its shielded position. The

gauge or its container must be locked when in transport, storage or when not under the direct surveillance of an authorized user.

18. Any cleaning, maintenance, or repair of the gauge(s) that requires removal of the source rod shall be performed only by the manufacturer or other persons specifically licensed by the Agency, the NRC, or an Agreement State to perform such services.
19. The licensee shall only transport radioactive material or deliver radioactive material to a carrier for transport in accordance with the provisions of 49 CFR Parts 170 through 189, 10 CFR Part 71, and 105 CMR 120.770 "Transportation of Radioactive Material."
20. Except as specifically provided otherwise by this license, the licensee shall conduct its program in accordance with statements, representations and procedures contained in the documents, including any enclosures listed below. The Massachusetts Regulations for the Control of Radiation, 105 CMR 120.000, shall govern, unless statements, representations and procedures in the licensee's application and correspondence are more restrictive than the regulations.
 - A. Application dated January 25, 2001.
 - B. Letter dated March 13, 2001.
 - C. Letter dated March 19, 2001.
