nal Health and Safety Administration (OSHA), the Environmental Protect  
ion Administration (EPA), and the Federal Management Agency (FEMA) on  
the concerns of non radiological hazards at NRC licensed facilities..  
The Commission requested development of clear staff guidance outlining  
the decision making process of whether to i  
nform OSHA or the licensee of concerns related to non©NRC regulated ha  
zards. The guidance should clearly state that the staff should not un  
dertake the role of an OSHA inspector. In addition, the staff was..ô..
