SUBJECT: MEETING SUMMARY - HARRIS NUCLEAR PLANT

Dear Mr. Scarola:

This refers to the open meeting that was conducted at your request at the Shearon Harris Nuclear Power Plant on March 21, 2001, to discuss issues related to the adequacy of your Thermo-Lag 330-1 fire barriers at the facility. A list of attendees and a copy of your presentation handout are enclosed.

It is our opinion that this meeting was beneficial in that we discussed the key technical elements of your engineering evaluations and fire endurance tests for the Thermo-Lag 330-1 fire barriers.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter and its enclosures will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/NRC/ADAMS/index.html> (the Public Electronic Reading Room).

Should you have any questions concerning this meeting, please contact us.

Sincerely,

/RA/

Charles R. Ogle, Chief
