Attention: Lyall Johnson  
Licensing Branch  
Division of Civilian Application

Ref: CAL:ND

Gentlemen:

We are inclosing two completed copies of form AEC-2 requesting permission to purchase 50 lbs. of Thorium Nitrate from the Lindsay Chemical Company.

We propose to use this material as an ingredient in optical glass that we are making for an air force contract. The thorium constitutes 5% of the total.

We trust our license will be granted immediately as we are very anxious to receive this material.

Very truly yours,

BAUSCH & LOMB OPTICAL CO.
