

Spent Fuel Pool Accidents For Decommissioning Plants
Working Group Plan
Structural Integrity Of Pool Structure
Goutam Bagchi (DE)

- ★ Introduction
- ★ Current NRC Studies
- ★ Hazards To consider
 - ★ Seismic: SSI, Pool Foundation Uplift, Foundation Hard Spots, Amplification At Elevated locations, Building To Building Impact, Failure Of Superstructure, Failure Of Crane Equipment, Spent Fuel Rack Impact On Pool Walls, Uplift And Impact Of Rack Foot On Pool Floor
- ★ Heavy Load Drop Accidents
- ★ Tornado Missiles
- ★ Safeguards Issues
- ★ Risk Ranking Of Hazards
- ★ Structural Failure Modes
- ★ Deterministic Considerations
- ★ Risk Informed Performance Goal
 - ★ Emergency Planning
 - ★ Indemnification
 - ★ Safeguards
- ★ Additional Activity
- ★ Summary
