Subject: Working Group Members,

Working Group Members,

We now have a third "Ed" on the team. Ed Ford will be replacing Wayne Scott in the area of Maintenance Rule and Quality Assurance, so Wayne can focus on other high priorities. Welcome, Ed! For those of you who were coordinating with Wayne before, please contact Ed Ford at 415-1149.

Glenn - I know that you were going to share your insights on your site visits with Wayne to assist in his review of what equipment is left at decommissioned plants, the importance of the equipment, etc. Please give the information to Ed Ford instead.

Thank you,
Vonna
