**Subject:** SFP Concurrence Schedule Adjustment

Glenn,

It is my understanding that in order for you to meet the 7/21 deadline, you need to add a milestone to the SFP Accident Risk Concurrence Schedule to reflect you receiving a completed T/H write-up from J. Staudenmeier earlier than the 7/21 date reflected on the schedule.

1. When do you need to receive Joe's completed T/H write-up?
2. Are there any other technical inputs that you need outside of T/H to complete your writeup by 7/21? If so, please tell me now so it can be reflected on the schedule and discussed with those providing the technical inputs that you need.

Joe,

Once Glenn responds to this email, could you please reply to all, stating if you can provide him with your T/H write-up by the date he suggests? If not, then discuss with me so we can come up with an alternative so that everybody meets the deadline.

Thank you,

Tanya
