

6/3/99

~~\$~~ for INCEL

radiation heat transfer.

Where do I want to be?

How convincing do I have to be?

Where will be after comments?

Company comes to safety goal  
What are consequences?

Not an attempt to calculate # fatalities that are or are not acceptable

Have done - negligible / non-negligible  
large course / no course.

Safety Coal applies generally to Operating reactors.

Take risks when have social values.

✓ SFP + Rx are 'safety standards'  
Where does it say to have same

Conseq are big.

No one looked at Severe Acc consequences

# Schnee
