Atlanta, GA 30354

SUBJECT: SURPLUS MONITORING EQUIPMENT

Dear Mr. Hardeman:

In response to Cliff Blackman's facsimile dated March 3, 2001, we have provided the equipment described in the enclosure to this letter. It was received by Ramon Garcia at the Environmental Laboratory at the Georgia Institute of Technology. Please annotate the enclosure that you have received this equipment by signing and dating it, and then faxing it to us at (404) 562-4955. This will allow us to remove it from our property.

Please note that the equipment must be calibrated before being used in the support of public health and safety.

The shield for the Germanium Detector is also available, but it requires special effort to move. Please contact us to make arrangements for you to take possession of it at your convenience.

If you have any questions, please call Orysia Masnyk Bailey at (404) 562-4739.

Sincerely,

/RA/
Douglas M. Collins, Director
Division of Nuclear Materials Safety
