Dick

Sam wants to ensure that the Q/A document answers the question, "What does all this mean regarding risk to the public."

Thanks
Stu

Please see the attached message from Joe Shea re: Questions the Commission wants to be answered in the Communications plan Q & A's for the TWG report. Would DSSA please take the lead to answer Q #1, a plain language explanation of Table 3.7-1. We will work with other staff/offices to ensure that the other Commission-identified issues are addressed. **This is a high priority effort so please prepare the explanation as soon as possible.**

Thanks!
