Dear Dr. Sutton:

Enclosed is Amendment Number 4 to Byproduct Material License Number 31-461-10 renewing this license in its entirety.

Your attention is directed to Condition 11 of this license and Item 2 of your Application Form AEC-313. If the processing laboratories listed there are not the only locations at which you anticipate use of byproduct material, you should submit an application for amendment of this license to specify the additional places of use.

Very truly yours,
