EASTMAN KODAK COMPANY, ROCHESTER, NEW YORK, LICENSE NO. 31-461-10,
10 CFR 30 - LOSS OF LUMINOUS MARKERS

SYMBOL: INS:R30

This office previously sent you a copy of a letter dated June 12, 1959, as received from the licensee on subject matter, as well as a copy of a memorandum dated July 2, 1959, from the NY Inspection Division on the same subject.

There is attached a copy of an inspection report from the NY Inspection Division dated September 23, 1959, which relates the results of an inspection of licensee's facility and also reports further on the loss of the luminous markers. You will note that the loss has been attributed to construction personnel who worked in the building from which the sources were removed. NY reports that the licensee has taken corrective action to prevent future losses by revising the manner in which the markers are mounted. In addition, licensee personnel have been reinstructed by the licensee that the markers are subject to AEC imposed controls and are not to be removed.

In our opinion there is no substantial health hazard to the public in the loss of the markers and a public release is not indicated. No further action is planned by this office and the loss of material case has been closed.

We concur with the recommendations of the NY Inspection Division with regard to the item of noncompliance found during the July inspection.
