Control 07825  
in system for  
term

June 23, 1981

Paul R. Guinn  
Nuclear Regulatory Commission  
Material Licensing Branch  
Division of Fuel Cycle and  
Material Safety  
Washington, D. C. 20555

Re: Mail Control No. 07825

Dear Mr. Guinn:

Eastman Kodak Company requests termination of license #31-00461-10 which authorized possession of tritium luminescent markers in nonagreement states. All materials which had been possessed under this license have been returned to our Rochester facility which is covered by New York State Radioactive Materials License #318-0255. The materials have been used at the Rochester facility or transferred to Radiac Research Corporation (NYS License #1944-1879) for disposal.

Please contact the undersigned if additional information is necessary.

Very truly yours,

  
E. Scott Harter  
Radiation Safety Officer
