July 2, 1959

Dr. William L. Button
Secretary Kodak Park Radiation Committee
Laboratory of Industrial Medicine
Eastman Kodak Company
Rochester 4, New York

Dear Dr. Button:

This letter is to confirm that I plan to visit you at about 8:30 a.m. on Thursday, July 30, 1959 to review the circumstances of the reported loss of some tritium-activated luminous markers possessed under AEC License No. DL-461-10 and the corrective action taken.

I'll be looking forward to seeing you at that time.

Very truly yours,

Richard S. Cleveland
