Gentlemen:

Reference is made to your letter dated August 23, 1962, requesting license amendment to provide for MM Americanium 241 sources to be used in your Alphatron measuring system.

Before we can take further action on your request, we need to have the information as indicated by Section I of the outline on the MM Americanium 241 sources. In addition we will need to have the information as indicated by Section II of the same outline on the Alphatron pressure measuring system utilizing Americanium 241 sources. You may wish to contact MM for the information regarding the Americanium 241 sources.

It is assumed from the reference in your letter (License 20-1465-3, dated May 3, 1962) that you were referring to license 20-1465-6, since License 20-1465-3 has expired. If License 20-1465-6 is not the license you wish amended, please clarify.

Sincerely yours,
