Attention: Manson Benedict
Scientific Director

Gentlemen:

Please accept our apology for not having acknowledged earlier your recent letter concerning your desire to obtain a supply of uranium to perform an experimental study for an improved process for the production of pure uranium metal. We had hoped by this time to have resolved some of the problems associated with your request but so far this has not been the case. The matter at the present time is being considered by our Division of Research and we trust that you will be furnished a definitive response in short order.

Sincerely yours,

Iyall Johnson
Chief, Licensing Controls Branch
