File 628

J.W. Hitch (7-8-57)

Call from Fred Vanderschmitts - National Research Corporation, Cambridge.

Stated that he had submitted an application for Tritium foil to be procured from U.S. Radium Corporation. Wanted to know whether or not application had been received. Learned that the application had not been received and we would contact him if additional information was required (application received afternoon of same day and given Control #6282.
