Subject: MEETING ACTION ITEMS - PLEASE READ

Working Group Members,

As we discussed in our April 29th Working Group Meeting, a few individual meetings need to take place between certain Working Group members before our next Working Group Meeting this Wednesday, May 5th.

1. Meeting between G. Bagchi, G. Kelly, and M. Cheok on Glenn's list of what he needs from Goutam to feed into his risk assessment. **(Scheduled to meet today, 5/3 at 1:30pm in O-11H11)**
2. Meeting between G. Kelly, M. Cheok, J. O'Brien, and J. Ridgely (RES) to discuss the assumptions for the dose consequences from J. Schaperow's initial results, and any other dose consequences to support Kelly and Cheok.
(Scheduled to meet today, 5/3 at 3pm in O-11H11)
3. Meeting between J. Staudenmeier, E. Connell, and T. Eaton on zirc fire interpretation. **(Staudenmeier to coordinate)**

Please let me know if you need anything else from other group members, and if you need me to help you out in any way.

Thanks again,

Vonna
