Sure. We are working on the paper right now. I can give you the latest information if you come by.

Could I get a copy of the draft technical position paper you gave to your division director yesterday? I would be willing to pick it up at any time. It would be helpful for me to review it prior to today's briefing. Also, I expect to be getting heavy into the analysis of the MACCS results today. It might help my analysis for me to see what the Level 1 PRA people wrote concerning spent fuel pool accidents.
