SUBJECT: 2001 Surety Update, TAC L52352	
<p>SUMMARY: A Homestake letter, dated March 30, 2001, stated that no adjustment to the current \$24,000,000 surety would be requested. The cost breakdown provided in the letter appears to justify this position. I called Mr. Cellan to inform him that although an acceptance review of the costs had been performed, no further action on the surety can be completed until receipt of financial information from the Homestake corporate office to justify a parent company guarantee. This information should be submitted as soon as possible to allow the NRC staff review to be completed prior to June 30, 2001.</p>
