**SEQUOYAH NUCLEAR PLANT - RESPONSE TO NRC REGULATORY ISSUE
SUMMARY (RIS) 2001-08, "OPERATING REACTOR LICENSING ACTION
ESTIMATES"**

This letter provides our response to the subject RIS dated April 2, 2001, which requested licensees to estimate the number of licensing actions expected to be submitted during the remainder of Fiscal Year (FY) 2001 and in FY 2002. Accordingly, we estimate that there will be 10 action requests for the remainder of FY 2001 and 15 action requests in FY 2002. Two of the action requests involving leading edge flow monitoring and tritium technical specification changes will classify as a complex review.

If you have questions regarding this response, please contact me at (423) 843-7170 or J. D. Smith at (423) 843-6672.

Sincerely,

Pedro Salas
Licensing and Industry Affairs Manager
