Mr. Mark Reddemann
Site Vice President
Kewaunee and Point Beach Nuclear Plants
Nuclear Management Company, LLC
6610 Nuclear Road
Two Rivers, WI 54241

SUBJECT: KEWAUNEE NUCLEAR POWER PLANT - REQUEST FOR WITHHOLDING
INFORMATION FROM PUBLIC DISCLOSURE (TAC NO. MB0306)

Dear Mr. Reddeman:

By your application dated October 12, 2000, and Westinghouse Electric Company, LLC's (Westinghouse) affidavit executed by H. A. Sepp dated April 19, 2001, you submitted a proprietary document entitled, "Development and Qualification of a GOTHIC Containment Evaluation Model for the Kewaunee Nuclear Power Plant," Westinghouse WCAP-15427, Revision 1, and you requested that it be withheld from public disclosure pursuant to 10 CFR 2.790. A nonproprietary copy of this document has been placed in the NRC public document room and added to the Agencywide Documents Access and Management Systems Publicly Available Records System (ADAMS PARS) Library.

The Westinghouse affidavit stated that the submitted information should be considered exempt from mandatory public disclosure for the following reasons:

- (4)(ii)(a) The information reveals the distinguishing aspects of a process (or component, structure tool, method, etc.) where prevention of its use by any of Westinhouse's competitors without license from Westinghouse constitutes a competitive economic advantage over other companies.
- (4)(ii)(c) Its use by a competitor would reduce his expenditure of resources or improve his competitive position in the design, manufacture, shipment, installation, assurance of quality, or licensing a similar product.

The Nuclear Regulatory Commission (NRC) staff has reviewed your application and the material in accordance with the requirements of 10 CFR 2.790 and, on the basis of Westinghouse's statements, has determined that the submitted information sought to be withheld contains privileged commercial information and should be withheld from public disclosure.

Therefore, we have determined that the document entitled, "Development and Qualification of a GOTHIC Containment Evaluation Model for the Kewaunee Nuclear Power Plant," Westinghouse WCAP-15427, Revision 1, marked as proprietary will be withheld from public disclosure pursuant to 10 CFR 2.790(b)(5) and Section 103(b) of the Atomic Energy Act of 1954, as amended.

Withholding from public inspection shall not affect the right, if any, of persons properly and directly concerned to inspect the documents. If the need arises, we may send copies of this information to our consultants working in this area. We will, of course, ensure that the consultants have signed the appropriate agreements for handling proprietary information.

If the basis for withholding this information from public inspection should change in the future such that the information could then be made available for public inspection, you should promptly notify the NRC. Also, you should understand that the NRC may have cause to review this determination in the future, for example if the scope of a Freedom of Information Act (FOIA) request includes your information. In all review situations, if the NRC makes a determination adverse to the above, you will be notified in advance of any public disclosure.

A non-proprietary version of this document has been placed in the NRC Public Document Room (PDR) and added to the Agencywide Documents Access and Management System (ADAMS) Public Electronic Reading Room (PERR) located on the NRC internet website at www.nrc.gov.

Sincerely,

/RA/
