## **VOGTLE ELECTRIC GENERATING PLANT - UNITS 1 AND 2 2000 ANNUAL REPORT**

### **INTRODUCTION**

The Vogtle Electric Generating Plant Units 1 and 2 are powered by pressurized water reactors; each rated at 3565 megawatts thermal. It is located on the Savannah River in Burke County, Georgia, at a site 34 miles southeast of Augusta.

The Unit 1 operating license was initially received on January 16, 1987, and commercial operation started on May 31, 1987. Unit 1 is in its tenth fuel cycle.

Unit 2 received its initial operating license on February 9, 1989, and began commercial operation on May 19, 1989. Unit 2 is operating in its ninth fuel cycle.
