 <p>Procedure Title: <i>Termination of a Section 274b Agreement</i> Procedure Number: SA-115</p>	<p>Page: 1 of 8</p> <p>Issue Date: 5/15/01</p>

I. INTRODUCTION

This procedure describes the process used by the Commission to terminate an Agreement State program.

II. OBJECTIVE

- A. To provide the guidelines to be followed by the Nuclear Regulatory Commission (NRC) when considering whether or not to terminate an agreement pursuant to the authority contained in Section 274j(1) of the Atomic Energy Act (Act), as amended.
- B. To describe the method for processing the termination, whether initiated at the request of the State or at the initiative of the NRC.

III. BACKGROUND

- A. Section 274j of the Act, as amended, gives the Commission authority to terminate its agreement with a State if such termination is required to protect the public health and safety, or if the State has not complied with one or more of the requirements of Section 274 of the Act (e.g., is found to be not compatible with the Commission's program). In cases where the Commission finds that program deficiencies are such that the State can no longer protect the public health and safety or continuing incompatibility results in significant national disruption, the Commission will institute proceedings to terminate the agreement with the State. The Commission can institute procedures to terminate an agreement even though the State has not been on probation. Procedures to address Agreement State probation can be found in the Office of State and Tribal Programs (STP) Procedure SA-113, "*Placing an Agreement State on Probation.*" Procedures to address emergency situations to temporarily suspend all or part of an agreement with a State can be found in STP Procedure SA-112 "*Emergency Suspension of a Section 274b Agreement.*"
- B. The Commission's "Statement of Principles and Policy for the Agreement State Program," dated September 3, 1997, established the option of terminating an Agreement State program. Section 274j(i) of the Act, as amended calls on the Commission to suspend or terminate an Agreement State program if "the State has not complied with one or more of the requirements" of Section 274.

- C. Before reaching a final decision on termination, the Commission will notify the State and provide the State an opportunity for a hearing on the proposed termination as discussed in Section V.D.1. Notice of the proposed termination will also be published in the *Federal Register*.

IV. ROLES AND RESPONSIBILITIES

- A. The Management Review Board (MRB) is responsible for considering the results of the Agreement State review and any other appropriate information in making a recommendation to the Commission to terminate an Agreement State program.
- B. The Executive Director for Operations (EDO) signs the Commission Paper containing the MRB's recommendation that NRC initiate the proceedings to terminate an agreement.
- C. STP is responsible for taking the lead in the preparation and coordination of the first Commission Paper recommending the termination of the Agreement State program in question. STP also coordinates all follow-up termination notifications, i.e., to the Governor, the *Federal Register*, the U.S. Department of Labor, Agreement State licensees, and All Agreement and Non-Agreement States.
- D. The Office of the General Counsel (OGC) is the lead for the preparation of the Commission Paper containing the termination order and the *Federal Register* Notice announcing the Commission decision.
- E. The Office of Congressional Affairs (OCA) is responsible for notifying Congressional Committees of the Agreement State program termination.
- F. The Office of Public Affairs (OPA) is responsible for releasing a public announcement of the Commission's decision to terminate the agreement.
- G. The NRC Region is responsible for taking the lead in conducting a meeting with the licensees in the State to explain the reassertion of NRC authority and present fee structure. This is to be done in consultation with the Office of Nuclear Material Safety and Safeguards (NMSS), OGC and the Office of the Chief Financial Officer (OCFO).
- H. The Commission or a Commission-appointed Special Agreement State Board is responsible for conducting an informal termination hearing, if so requested by the Agreement State.

V. GUIDANCE**A. Minimum Criteria for Termination**

1. At the request of the Governor, NRC may terminate all or part of its Agreement with a State and reassert its authority. The letter should be addressed to the Chairman, NRC, from the Governor.
2. The Commission will institute formal procedures to terminate an agreement under the following circumstances:
 - a. The State radiation control program is found to be inadequate to protect public health and safety, and no compensating program has been implemented;
 - b. The State has been on probation for a period of time during which it failed to respond to NRC concerns regarding the State's ability to carry out a program to protect public health and safety; or
 - c. The State radiation control program is not compatible with the NRC program and the State has refused, or is unable, to address those areas previously identified as compatibility concerns and the non-compatibility is significantly disruptive to the national program among NRC and Agreement States for the regulation of Atomic Energy Act material.
3. The following are examples of situations where NRC would consider initiating formal procedures to terminate an agreement. This list is not inclusive and other situations may require consideration by the Commission at the recommendation of the MRB and the EDO.
 - a. Significant loss of staff, which includes number of staff or those with critical skills, coupled with a State's inability to hire appropriate replacements in a timely manner to meet the needs of the program.
 - b. Continual problems which manifest in the State's inability to perform adequate inspections, respond to incidents, events or allegations, or issue appropriate licenses.
 - c. State's inability to adopt compatible program elements over a significant period of time.

d. Continued probationary or suspension status for a State program.

B. MRB

1. The MRB will meet to discuss the specific program review findings. These meetings are normally open to the public and Agreement States' representatives will be invited to attend (SA-106, *Management Review Board*). MRB's internal deliberation regarding the termination of an Agreement State program may be closed, given the predecisional nature of those discussions.
2. Following the MRB meeting and based upon its determination, the MRB will make a recommendation to the EDO, and subsequently to the Commission, to terminate the Agreement State program in question.

C. STP

1. If it is the recommendation of the MRB and EDO that NRC initiate the proceedings to terminate an agreement, STP is assigned the lead for preparation of a Commission Paper. The Commission Paper will contain the MRB recommendations and any other information pertinent to the staff's recommendations supporting the termination of the Agreement State program in question. The paper will also assess potential resource implications of NRC reasserting authority. (See Appendix A for sample Commission Paper, including a sample *Federal Register* Notice.)
2. The initial Commission paper will be coordinated with OGC, NMSS, and the appropriate Region.

D. The Commission

1. Before a decision is made on the MRB's recommendation, the Commission must provide the State with reasonable notice and an opportunity to request a hearing on the issue, as required by Section 274j(1), as amended. Section 274j(1) does not require such a hearing if termination is requested by the Governor.
2. If the State does not request a hearing, the Commission will proceed to make a final decision on the issue.

- a. OGC is the lead for preparation of a Commission Paper containing the termination order, the *Federal Register* Notice announcing the Commission decision, and letter notifying the Governor of the termination (see Appendix B).
- b. STP will provide as background to the second Commission Paper:
 - i. Public Announcement (see Appendix C);
 - ii. Letters to Congressional Committees (see Appendix D);
 - iii. Letter to U.S. Department of Labor (see Appendix E).
3. If the State does request a hearing, the Commission will initiate the hearing process described in Section E. Hearing, below.
4. Whether or not a hearing is requested, if the Commission decides not to support the recommendation to terminate the State's program, the Governor will be notified of this result.

E. Hearing

1. The hearing for the termination (including the termination of a program that had been previously suspended) of an Agreement State program will be an informal hearing conducted either by the Commission itself, or at the Commission's discretion, by a Special Agreement State Board appointed by the Commission. In cases where the Commission determines that a Special Board will be used, the Board will consist of three members:
 - a. The Chair of the Organization of Agreement States (OAS) (unless the Chair is from the State in question, in which case the Agreement State representative will be the past Chair of the OAS);
 - b. An official from OGC; and
 - c. The Deputy Regional Administrator of a NRC Regional Office (outside of the Region in which the State is located).
2. The Commission, or the Special Board, as appropriate, will conduct an informal hearing to address the issues in question.

- a. At the hearing, the NRC staff, representatives of the Agreement State, and interested third parties will have an opportunity to offer their views, answer questions, and submit written materials.
- b. Third parties whose interests may be affected may submit written material and may offer their views for a limited period of time.
- c. After consideration of the issues, the Commission or the Special Board will issue a decision on termination. A majority of the Commission or the Special Board will be required to support a decision.
- d. In cases where a Special Board is used, the Commission will have discretion to review the decision of the Special Board, and either uphold or overturn the Board's decision.

F. Agreement State and NRC Activities During Termination Proceedings

During the period of time NRC is pursuing termination of an agreement with a State, State and NRC activities should be coordinated so that there is continued protection of the public health and safety. STP will coordinate with the State, Region, and NMSS as to the necessary technical assistance to continue the protection of public health and safety.

G. Additional Coordination After Terminations

1. NRC will conduct a meeting with the licensees in the State to explain the reassertion of NRC authority and the present fee structure. Lead for the meeting should be the Region in consultation with NMSS, OGC and OCFO.
2. After the termination of the agreement, the STP will issue the letter to the U.S. Department of Labor advising the Department of the effective date of the termination of the agreement (see Appendix E).
3. The Regional State Agreements Officer (RSAO) should obtain from the State a computer printout of all specific and general licenses under the State's agreement. Mailing labels should be obtained, if possible, from the State. A letter should be prepared notifying each licensee of the termination, reassertion by NRC, and appropriate information (see Appendix F).

4. STP will prepare a letter to All Agreement and Non-Agreement States notifying them of the effective date of the termination and, if appropriate, enclosing a copy of the Order or *Federal Register* Notice (see Appendix G).
5. The Region will coordinate with the State so that all necessary action is taken to have the files for the licenses transferred to the NRC.

H. Renewed Interest in 274b

A State that has had an agreement terminated by the NRC, may at a later date express interest in obtaining a new agreement. The State should be treated as other Non-Agreement States interested in agreements, and STP Procedure SA-700, *Processing a New Agreement*, should be followed for these negotiations.

Termination Procedure

DRAFT SAMPLE: Commission Paper for Reassertion of NRC Authority in an Agreement State and Request for Hearings

FOR: The Commissioners

FROM: Executive Director for Operations

SUBJECT: STAFF'S RECOMMENDATIONS REGARDING TERMINATION OF
[STATE'S] AGREEMENT WITH THE COMMISSION AND OPPORTUNITY
FOR HEARING

PURPOSE:

To present the results of the staff review of the [State] program, the Management Review Board's (MRB) recommendation for termination of [all or part] of the [State] agreement and request that a special Agreement State Board be convened to provide [State] with an opportunity for a hearing if requested.

SUMMARY:

A review of [State's] Agreement State program was conducted on [Date]. As a result of this review and results of the MRB, the staff finds that [State's] regulatory program [is inadequate to protect public health and safety and/or has not complied with one or more requirements of Section 274 of the Atomic Energy Act (Act)]. Accordingly, the staff is recommending that the Commission initiate hearing procedures for the suspension of [State's] program.

DISCUSSION:

Section 274j of the Act authorizes the Commission to terminate the agreement with any State, after reasonable notice and an opportunity for hearing to the State, and to reassert the Commission's licensing and regulatory authority if the Commission termination is required to adequately protect public health and safety or because the State has not complied with one or more requirements of the Act.

[This section should contain facts concerning the State's program, why termination is appropriate versus suspension. Reviews, MRB meetings, and discussions and correspondence with the State addressing the deficiencies should be documented.]

Appendix A (Continued)

[The staff should document any information on whether the State will be requesting a hearing regarding the termination. If a hearing request is likely, staff should discuss the options of the informal hearing conducted by the Commission or by the Special Agreement State Board.]

COORDINATION:

This paper has been coordinated with the Office of the General Counsel, which has no legal objection.

RECOMMENDATION:

That the Commission:

1. Notify [State] of an opportunity for a hearing on the proposed termination through [Special Agreement State Board or Commission itself]. If requested, approve such a request.

Opportunity for Hearing on Termination of [State's] Regulatory Authority and the Reassertion of NRC Authority

AGENCY: U.S. Nuclear Regulatory Commission (NRC)

ACTION: Notice of Opportunity for Hearing on Termination of the [State] Regulatory Authority and the Reassertion of the NRC Authority

SUMMARY: The NRC staff has proposed that the Commission terminate [State's] regulatory authority over [identify part of agreement affected and material affected] and reassert NRC's authority in [State]. The staff believes that such action is necessary in order to ensure that public health and safety will be protected. Accordingly, the Commission is providing the State with this notice of opportunity for a hearing on the proposed termination of the [State's] regulatory authority.

FOR FURTHER INFORMATION CONTACT:

[STP CONTACT], Office of State and Tribal Programs, U.S. Nuclear Regulatory Commission, Washington, DC 20555, telephone [telephone number].

SUPPLEMENTARY INFORMATION:

Under Section 274 of the Atomic Energy Act (Act), as amended in 1959, individual States can assume part of the NRC's regulatory authority over the possession and use of byproduct, source, and special nuclear materials. In order to effect and maintain such a transfer of authority, the State must demonstrate that its program is adequate to protect the public health and safety and is also compatible with the Commission's program for regulating those materials.

[Narrative on whether the State has requested termination].

Staff review and recommendations regarding the adequacy and compatibility of Agreement State Programs are made through the Management Review Board (MRB) which consists of senior NRC managers and an Agreement State representative. The MRB makes its decisions regarding the adequacy of each Agreement State's program based on the staff's reviews of the program. In reviewing [State's] program, the MRB has recommended that the Commission terminate the State's agreement with NRC [Narrative of MRB findings and any hearings.]

Attachment 2 (Continued)

Pursuant to the provisions of Section 274j of the Act of 1954, as amended, the staff has proposed that the Commission terminate the [State] agreement over [identify part of agreement affected and material affected] and reassert NRC's authority in [State] in order to protect the public health and safety.

Section 274j(1) of the Act requires that before termination or suspension of all or part of an agreement, reasonable notice and opportunity for hearing must be provided to the State. If the State does not request a hearing within 30 days, the Commission will make a final decision on the staff's recommendation to terminate the State's Agreement. If a hearing is requested by the State, [provide details regarding the conduct of hearing including the question as to whether the hearing will be conducted by the Special Agreement State Board or the Commission itself.] After consideration of information obtained from the hearing, the Commission will make a final determination on termination of the agreement with the State of [State's Name].

Existing licensees in [State] will be advised of this potential change in regulatory authority if the Commission decides to initiate termination proceedings.

For information regarding this reassertion action contact [Director], Office of State and Tribal Programs.

[ALL OR PART OF] THE [STATE] AGREEMENT

PURPOSE:

To inform the Commission that [State] was offered an opportunity for a hearing and not having requested one, to recommend termination of [all or part] of the [State] agreement.

SUMMARY:

As stated in SECY [Identification Number], a review of [State's] Agreement State program was conducted on [Date]. On [Date], NRC published a notice of opportunity for a hearing on the proposed suspension in the *Federal Register*. The State has not requested a hearing on the matter. Accordingly, the staff recommends that the Commission suspend [State's] Agreement.

DISCUSSION:

Order Terminating Agreement State Program

UNITED STATES
NUCLEAR REGULATORY COMMISSION

In the Matter of

[Name of State]

[Agreement State Program]

ORDER TERMINATING AGREEMENT STATE PROGRAM

I

[Set forth the name of the Agreement State program and background information as to when the program was initiated, what type of agreement materials are covered, and the authority of the Commission and the Governor of the particular State to enter into this type of agreement. In addition, the authority of the Commission to terminate the Agreement State program should be stated. The following is provided as a sample discussion for this section.]

On [Date], the State of [Name] entered into an agreement (Agreement) with the Nuclear Regulatory Commission (NRC or Commission) pursuant to Section 274 of the Atomic Energy Act of 1954, as amended, 42 U.S.C. Section 2021. The Agreement discontinued the NRC's regulatory authority within the State with respect to [byproduct material as defined in Section 11e(1) of the (radioisotopes) and/or byproduct material as defined in Section 11e(2) of (mill tailings or wastes) and/or source material (uranium and thorium) and/or special nuclear material (uranium 233, uranium 235 and plutonium) in quantities not sufficient to form a critical mass and/or permanent disposal of low-level waste containing one or more of the materials stated above, but not including mill tailings]. The Agreement authorized the State of [Name] to regulate these materials for the protection of public health and safety.

II

[This section should provide a description of relevant events, facts, deficiencies, technical or legal reasons that provide the substantive basis for issuing the Order. The following example is provided as a sample discussion for this section.]

A review of [State's] Agreement State program was conducted on [Date]. As a result of this review and Management Review Board (MRB) recommendations, the Commission has

Attachment 1 (Continued)

determined that [State's] regulatory program is inadequate to protect public health and safety. The review ascertained that [State's] Agreement State program failed to adequately protect public health and safety by [facts directly bearing on failure of the program to adequately maintain public health and safety].

[and/or the following:]

In addition, the review and MRB evaluation ascertained that [State's] Agreement State program has not complied with one or more requirements of the Act, i.e., it is incompatible. [Describe facts directly bearing on incompatibility between the two programs.]

III

[This section should provide the justification for issuing the Order, in light of the facts described in Section II. The following example is provided as a sample discussion for this section.]

Section 274d of the Act provides, in part, that the Commission shall enter into an Agreement with a State to discontinue the Commission's regulatory authority if the Commission finds that the State's regulatory program is adequate to protect the public health and safety with respect to materials covered by the proposed agreement and the State's regulatory program complies with Section 274o of the Act and in all other respects is compatible with the Commission's program for the regulation of such materials.

Section 274j(1) of the Act authorizes the Commission to terminate its agreement with any State, after reasonable notice and an opportunity for hearing to the State, and to reassert the Commission's licensing and regulatory authority if the Commission finds that such suspension is required to protect public health and safety or the State has not complied with one or more requirements of Section 274 of the Act.

The NRC must be able to rely on [State's] Agreement State program to [adequately protect public health and safety] [and/or] [to be compatible with the Commission's requirements and standards applicable to the agreement material]. The facts and circumstances enumerated in Section II of this Order raise serious doubts as to whether [State] can be relied upon under the Act. [Explain why facts are severe enough to warrant termination as opposed to suspension.]

Consequently, I have determined that the termination is required [to protect the public health and safety] OR [because the State has not complied with one or more of the requirements of Section 274 of the Act of 1954, as amended].

Attachment 1 (Continued)

IV

Accordingly, pursuant to Sections 161b, 161c, 161i, 161o, and 274 of the Act of 1954, as amended, IT IS HEREBY ORDERED THAT THE AGREEMENT BETWEEN THE COMMISSION AND [STATE], DATED _____, TERMINATE AS FOLLOWS:

ACTION: Notice of Termination of the [State] Regulatory Authority and the Reassertion of the NRC Authority in [State].

SUMMARY: The NRC has terminated [State's] regulatory authority over [identify part of agreement affected and material affected] and reasserting NRC's authority in [State]. The action, which is effective on [Date], is being taken in order to ensure that public health and safety will be protected [or because of compatibility concerns].

SUPPLEMENTARY INFORMATION:

Under Section 274 of the Atomic Energy Act, as amended in 1959 (Act), individual States can assume part of the NRC's regulatory authority over the possession and use of byproduct, source and special nuclear materials. In order to effect and maintain such a transfer of authority, the State must demonstrate that its program is adequate to protect the public health and safety and is also compatible with the Commission's program for regulating those materials.

[Narrative on whether the State has requested termination].

Staff review and recommendations regarding the adequacy and compatibility of Agreement State Programs are made through the Management Review Board (MRB) which consists of senior NRC managers and an Agreement State representative. The MRB makes its decisions regarding the adequacy of each Agreement State's program based on the staff's reviews of the program. In reviewing [State's] program, the MRB recommended that the Commission terminate the State's agreement with NRC. The Commission has considered the State of [Name] radiation control program and has agreed with the findings of the MRB, as well as with its recommendation to terminate the program.

Attachment 2 (Continued)

[Narrative of MRB findings and any hearings.]

Pursuant to the provisions of Section 274j of the Act of 1954, as amended, the Commission found that it is necessary to terminate the [State] agreement over [identify part of agreement affected and material affected] and reassert NRC's authority in [State] in order to protect the public health and safety. This finding ensures that there will be adequate licensing inspection of Act activities. This reassertion of authority will become effective on [date].

Persons seeking licenses for activities within [State] involving [materials affected] should file such applications with [Regional Office information].

Existing licensees in [State] are being advised of this change in regulatory authority. Pursuant to a Commission Order published with this notice, existing [State] licenses affected by this change will become effective NRC licenses under conditions set forth in the Order.

Termination Procedure

DRAFT SAMPLE: Public Announcement to be Issued by the Office of Public Affairs

NRC TO REASSERT REGULATORY AUTHORITY IN [STATE]

The Nuclear Regulatory Commission [NRC] is reasserting its regulatory authority over the possession and use of byproduct, source, and special nuclear materials in [State].

The action, which is effective on [Date], is being taken in order to ensure that public health and safety will be protected. [Facts requiring termination should be given, including information on a hearing, if held.]

Under Section 274 of the Atomic Energy Act, as amended in 1959, individual States can assume part of the NRC's regulatory authority over the possession and use of byproduct, source, and special nuclear materials. In order to effect and maintain such a transfer of authority, the State must demonstrate that its program is adequate to protect the public health and safety and is also compatible with the Commission's program for regulating those materials. The State of [State Name] signed an agreement with the NRC in [Year] that authorized the State to regulate these radioactive materials.

Section 274j of the Atomic Energy Act gives the Commission authority to terminate all or part of its agreement with a State if the termination is required to protect the public health and safety, or if the State has not complied with one or more of the requirements of Section 274 of the Act. In cases where the Commission finds that program deficiencies related to either adequacy or compatibility are such that the Commission must take action, the Commission will terminate all or part of its agreement with the State.

Licensees in [State] are being advised of the NRC's action in Order [Date], and the NRC staff has identified files which are to be transferred from [State] authorities. In the meantime, the affected [State's Name] licenses, as currently issued, will remain in effect until they can be revised, if necessary, to meet NRC's requirements.
