Mr. Kirksey E. Whatley, Director  
Office of Radiation Control  
Alabama Department of Public Health  
201 Monroe Street, P.O. Box 303017  
Montgomery, AL 36130-3017

Dear Mr. Whatley:

As requested, we have reviewed the proposed Alabama Regulations for Control of Radiation, that you provided to us by letter dated March 21, 2001. The proposed regulations are in response to the one amendment identified in the enclosed State Regulation Status. The regulations were reviewed by comparison to the equivalent NRC regulations in 10 CFR Part 30.10. Upon request, we also received a May 11, 2001 e-mail that cites the Code of Alabama 1975, Section 22-14-12 and 22-14-14, that provides the necessary authority for enforcement of the deliberate misconduct rule.

As a result of our review, we have no comments. Please note that we have limited our review to regulations required for compatibility and/or health and safety. Under our current procedure, a finding that a State regulation meets the compatibility and health and safety categories of the equivalent NRC regulation may only be made based on a review of the final State regulation. However, we have determined that if your proposed regulations were adopted without significant change, they would meet the compatibility and health and safety categories established in Office of State and Tribal Programs (STP) Procedure SA-200.

We request that when the proposed regulations are adopted and published as final regulations, a copy of the "as published" regulations be provided to us for review. As requested in STP Procedure SA-201, *Review of State Regulations* (November 10, 1998), please highlight the final changes and send one copy in a computer readable format, if possible.

The State Regulation Status summarizes our knowledge of other Alabama regulations. Please let us know if you note any inaccuracies or have any comments on the information contained in the Status. This letter including the Status is posted on the STP Web Site: <http://www.hsrc.ornl.gov/nrc/rulemaking.htm>.

If you have any questions regarding the comments, the compatibility and health categories, or any of the NRC regulations used in the review, please contact me or Richard L. Woodruff of our Region II office at 404-562-4704 or [rlw@nrc.gov](mailto:rlw@nrc.gov).

Sincerely,

**/RA/**
