Kim,

I spoke with Ken Farrell, here at ORNL who gave me the following:

Phil Rittenhouse is recently retired from ORNL, but comes into the Lab frequently. He is so recently retired that he has not been reassigned a phone # or email account. He is currently in the middle of a 3 week vacation. I do not know him but have it on good authority that he knows about Zr alloys. Try him. If that does not work let me know.

P L Rittenhouse  
346 Myers Rd  
Kingston, TN 37763  
Phone: 423-376-4064  
pritt@bellsouth.net

Murty  
Westinghouse, guy

Also there is a fellow referred to me,  
Sheik Mahmood  
GE Vallecitious  
Phone: 510-862-4388

Another place where Zircalloy work is done is Chalk River, Canada.  
No names to give you though.

Hope this helps.  
Tom
