Subject: Requested documents

Chuck,

I would like to obtain copies of the following documents:

Westinghouse blanket purchase "Watts Bar Blanket Purchase Order Release Request No. 94NNX-112361" dated June 16, 1995.

Field Deviation Report WATM-10356 dated June 1, 1995. This FDR refers to PER 950246 R1. Are you aware of two copies, Rev. 0 and Rev. 1 of this PER?

As we discussed earlier, I would like to establish what factors led Westinghouse and Watts Bar to an agreement as to what would satisfy the corrective action plan WBPER 950246. That is, was there a telephone conversation, e-mail, or teleconference where a plan of action was discussed?

--- Do you have any journal notes, e-mails or memos re any conversations with TVA personnel concerning this matter?

Thanks
Gary
