

June 13, 2001

The Honorable Michael A. O'Pake  
Pennsylvania Senate  
1940 N. 13th Street  
Reading, PA 19604

SUBJECT: LIMERICK GENERATING STATION - ANNUAL ASSESSMENT OF SAFETY  
PERFORMANCE

Dear Senator O'Pake:

I would like to personally invite you and other members of your organization to attend a meeting between the Nuclear Regulatory Commission (NRC) and Exelon Generation Company in which we will discuss our annual assessment of the safety performance of the Limerick Generating Station.

The NRC completed its annual assessment of the safety performance of the Limerick Generating Station in accordance with the NRC Reactor Oversight Process. Our assessment used the most recent performance indicator data and inspection findings from the last 12 months. We described our assessment results in a letter to the Exelon Generation Company on May 30, 2001; a copy of that letter is attached.

On June 26, 2001, the NRC will meet with the management of Exelon to discuss the safety performance of the Limerick Generating Station. This meeting is scheduled to begin at 6:00 p.m., in the Limerick Energy Information Center, 298 Longview Road in Linfield, Pennsylvania, and is open to the public for observation.

Following the meeting, the NRC staff will be available to address questions or comments from you and members of the public pertaining to our annual assessment of Limerick or the implementation of the Reactor Oversight Process and planned inspections. You can also become familiar with our Reactor Oversight Process, the information we used in our annual assessment, and the specific safety performance at the Limerick Generating Station through the NRC Web site. This information may be accessed at <http://www.nrc.gov/NRR/OVERSIGHT>

Your schedule permitting, I look forward to meeting you on June 26, 2001. In the interim, please do not hesitate to contact me at 610-337-5209, if I can be of further assistance to you.

Sincerely,

/RA/

Mohamed Shanbaky, Chief  
Projects Branch 4  
Division of Reactor Projects

PERFORMANCE

Dear Mr. Scott:

I would like to personally invite you and other members of your organization to attend a meeting between the Nuclear Regulatory Commission (NRC) and Exelon Generation Company in which we will discuss our annual assessment of the safety performance of the Limerick Generating Station.

The NRC completed its annual assessment of the safety performance of the Limerick Generating Station in accordance with the NRC Reactor Oversight Process. Our assessment used the most recent performance indicator data and inspection findings from the last 12 months. We described our assessment results in a letter to the Exelon Generation Company on May 30, 2001; a copy of that letter is attached.

On June 26, 2001, the NRC will meet with the management of Exelon to discuss the safety performance of the Limerick Generating Station. This meeting is scheduled to begin at 6:00 p.m., in the Limerick Energy Information Center, 298 Longview Road in Linfield, Pennsylvania, and is open to the public for observation.

Following the meeting, the NRC staff will be available to address questions or comments from you and members of the public pertaining to our annual assessment of Limerick or the implementation of the Reactor Oversight Process and planned inspections. You can also become familiar with our Reactor Oversight Process, the information we used in our annual assessment, and the specific safety performance at the Limerick Generating Station through the NRC Web site. This information may be accessed at <http://www.nrc.gov/NRR/OVERSIGHT>

Your schedule permitting, I look forward to meeting you on June 26, 2001. In the interim, please do not hesitate to contact me at 610-337-5209, if I can be of further assistance to you.

Sincerely,

/RA/

Mohamed Shanbaky, Chief  
Projects Branch 4  
Division of Reactor Projects

SUBJECT: LIMERICK GENERATING STATION - ANNUAL ASSESSMENT OF SAFETY  
PERFORMANCE

Dear Mr. Stonehouse:

I would like to personally invite you and other members of your organization to attend a meeting between the Nuclear Regulatory Commission (NRC) and Exelon Generation Company in which we will discuss our annual assessment of the safety performance of the Limerick Generating Station.

The NRC completed its annual assessment of the safety performance of the Limerick Generating Station in accordance with the NRC Reactor Oversight Process. Our assessment used the most recent performance indicator data and inspection findings from the last 12 months. We described our assessment results in a letter to the Exelon Generation Company on May 30, 2001; a copy of that letter is attached.

On June 26, 2001, the NRC will meet with the management of Exelon to discuss the safety performance of the Limerick Generating Station. This meeting is scheduled to begin at 6:00 p.m., in the Limerick Energy Information Center, 298 Longview Road in Linfield, Pennsylvania, and is open to the public for observation.
