Attn: Rulemaking and Adjudications Staff

Dear Friends,

Aug 17, 2001

I oppose the NRC proposed rulemaking, as described in the Federal Register, April 16, 2001, to change the licensing hearing process for nuclear power reactors. The public is entitled to full & meaningful participation in our on the record hearing process for the licensing of new reactors & in licensing of aging reactors to operating duty amendments to license safety requirements.

Sincerely,
Florence Burghorn
