OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

RE: REACTOR LICENSING

Dear Sir,

meaningful
Your planned intent to eliminate
a public participation in the licensing of
new nuclear power plants is ill-conceived
and malicious because

- (1) there should be no nuclear power
plants built in the world; as you
well know, there is no solution
to nuclear waste on the planet, e.g.,
the Snake River Aquifer in ID has
been contaminated with plutonium,
as is the Rio Grande, ^{waste from Rocky Flats} not to mention
the vast waste ^{River} land in the Ukraine
from Chernobyl ^{annihilated + children suffering} wastes, whole communities
(2) such a policy to bar community
participation means that you do not
wish to practise, as an agency,
full-disclosure; it is valuable to
hear many viewpoints + perceptions about
the contamination of the earth which will
surely happen with your inauguration of
new plants,

Template = SECY-067

SECY-02

(127)

(2)

(a) you would eliminate the public's right to know by your one-step licensing process,

(1) by eliminating discovery for documentation,

(2) by eliminating evidence & cross-examination processes.

Why are you pursuing such an unreasonable & unreasonable approach? Why, indeed, are asking is such ignorant padding? Why don't you do what you are really supposed to do, i.e., regulate for environmental safety? If you pursued a true course, then there would be no ^{new} nuclear power plants. They are not safe & not environmentally sound, contrary to the lies of the nuclear industry & the executive govt of the US, presently.

Why are you incurring a practice toward the harm of all beings?

There are those like Dr. Yuri Bandazhevsky, a researcher of the effects of cesium 137 & Belaruso on the nervous system of human, who risk imprisonment for truth.

Why don't you pursue the truth like Dr. Bandazhevsky & tell the truth about the safety of nuclear power plants? We have all the wind & solar & hydrogen & water to create & to provide for our energy needs. Why don't you

—

tell the truth?

I remain largely a questioning
teacher about the propriety of your agency,
+ its 1-step licensings which is a lie that a license means
I remain,
anything.

Very truly yours,

Elfreda L. Fortensen
1924 So. University
Denver, CO 80210
303-733-4655

You discredit the whole human family
by your lethal licensing procedures that
are not licenses but licenses to kill all beings.

7/27/2005
