RE: REQUEST INFORMATION

Dear Mr. Reyes:

As per the rights conferred through the Freedom of Information Act, we hereby request official information, preferably in the form of a Certification stating that the U.S. Nuclear Regulatory Commission has not yet issued any license for the operation of a nuclear medicine facility which uses the Positron Emission Tomography technology within the jurisdiction of Puerto Rico.

This information is needed in order to supplement a request for a Certificate of Need which is being contended in the Department of Health. The Administrative hearing in this matter is scheduled for September 20, 2001, thus, time is of the essence and we appreciate it if you can deliver said document to us via fax at (787) 759-8055 as soon as possible.

Please call me should you need additional information or if there are any fees to be paid in order to comply with this request. Thank you.

Cordially,

ALEJANDRO PÉREZ-MONTE
