SUBJECT: DISCRIMINATION COMPLAINT RII-1997-A-0058

Dear Mr. Overall:

Per a cooperative agreement between the U.S. Department of Labor (DOL) and the Nuclear Regulatory Commission (NRC), we received a copy of DOL's January 29, 1997, correspondence to you. DOL-OSHA acknowledged their receipt of your January 15, 1997, Section 211 discrimination complaint against the Tennessee Valley Authority (TVA).

In your complaint you reported that you felt discriminated against for raising nuclear safety issues and placed in "At-Risk" status at TVA's Watts Bar facility. Your position of PR MAINT SPEC was targeted for surplus and you were assigned to TVA's Services organization. This is to inform you that we will follow-up on your discrimination complaint and continue to monitor DOL actions under a new allegation number, RII-1997-A-0058.

With regard to your technical issue concerning maintenance activities of the ice condenser, i.e., broken ice basket screws, at Watts Bar and Duke Power Company's nuclear power plants, we are continuing our inspections and will inform you of the results once we complete our review. This will be under the correspondence of allegation number RII-1996-A-0249.

Should you have any questions, please contact me by calling 1-800-577-8510 or call me at (404) 331-4194. Collect calls will be accepted. You can also respond in writing. Our mailing address is P.O. Box 845, Atlanta, GA 30301.

Sincerely,

Al Ignatonis,
Senior Allegations Coordinator
Enforcement and Investigation
Coordination Staff
