RULEMAKINGS AND  
ADJUDICATIONS STAFF

Attention: Rulemaking and Adjudications Staff  
Office of the Secretary  
U.S. Nuclear Regulatory Commission  
Washington, DC 20555

To Whom It May Concern:

As a citizen concerned about public participation I am opposed to the NRC proposed rulemaking as described in The Federal Register, April 16, 2001, Vol. 66 to change the licensing hearing process for nuclear power reactors. Local citizens deserve the opportunity to have adequate input on decisions that will impact their lives and those of their children. The public is entitled to full and meaningful participation in an on-the-record hearing process for the licensing of new reactors, the relicensing of aging reactors and industry amendments to operating license safety requirements. This public process should not be aborted due to pressure from the nuclear industry. Local communities deserve much more respect than the proposed rulemaking provides.

Sincerely,

Jenny E. Holmes
