DOCKET NUMBER
PROPOSED RULE **PR 73**
(60 FR 24803)

ATTENTION: Docketing and Service Branch

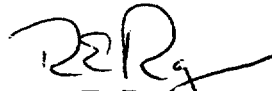

Dear Mr. Hoyle:

Subject: Comments on Proposed Rule -- Changes to Nuclear Power Plant Security Requirements Associated With Containment Access Control (60 FR 24803, May 10, 1995)

Carolina Power & Light Company (CP&L) appreciates the opportunity to comment on the proposed rule -- Changes to Nuclear Power Plant Security Requirements Associated With Containment Access Control (60 FR 24803, May 10, 1995). CP&L supports the NRC's recommended deletion of Part 73.55 paragraph (d)(8), which contains an unnecessary requirement for separate access control to reactor containments, as well as a requirement for locks and alarms, which is contained elsewhere in Part 73.55.

Please contact Ms. Cindy Tully at (919) 546-7924 with any questions about the CP&L position on this rule.

Sincerely,

R. E. Rogan
